We Pay POSTAGE

FOR years Sears, Roebuck and Co. have been working to make possible the prepayment of parcel post charges. When we had only one store in Chicago we could not do this. We now have ten mail order distributing stores conveniently located throughout the United States. Until we had this great chain established, until 90% of the population of the United States was within a short distance of one of our mail order stores, we could not make this announcement.

WE PAY THE POSTAGE

Now this great money saving feature is offered to you as an additional reason why you should buy from the World's Largest Store. The establishment of our great chain of stores has increased our sales and made possible operating economies allowing us to absorb a large part of the parcel post charges. In most cases you make an actual saving over what you formerly paid. In no case do you pay more.

WE PAY THE POSTAGE

This saving is passed directly to you. Compare our delivered prices with the prices of others and be sure to add the parcel post charges to their prices.

Our prices are the lowest in America!

WE GUARANTEE

To save you money—To deliver all merchandise safely
To satisfy you perfectly

WE GUARANTEE that every article in this catalog is honestly described and illustrated.

WE GUARANTEE that any article purchased from us will give you the service you have a right to expect.

IF FOR any reason whatever you are not satisfied with any article purchased from us, we want you to return it to us at our expense.

WE WILL then exchange it for exactly what you want, or will return your money, including any transportation charges you have paid.

The World's Largest Store!

THE red stars on the map above clearly demonstrate how completely our big mail order distributing stores cover the country. East, West, North and South, we have stores everywhere to serve everyone.

The smaller dots give you locations of our additional warehouses from which certain heavy, bulky merchandise is shipped. Orders for this merchandise may be sent directly to these warehouses.

BE sure to read the descriptions in this catalog carefully before ordering so that you may make greater savings in time and money.

In addition to the cities shown on this map, we have other distributing stores, warehouses and factories from which certain merchandise is shipped. In such cases the descriptions plainly state the points of distribution.

The World's Largest Store gives the best service.

My PLEDGE *to our customers*

SEARS, ROEBUCK AND CO.
OFFICE OF THE PRESIDENT

Service--Quality--Savings---these three, and LEADERSHIP in these three, have made us the World's Largest Store.

As President of Sears, Roebuck and Co., it is my privilege to tell you that every member of our organization is determined to hold this leadership.

There can be no doubt of our leadership in SERVICE to our customers. For forty-three years we have led all others in shipping orders in the shortest possible time. If you will compare our service with that of any other mail order house, you will find that you get the best service from Sears.

The QUALITY of our merchandise has always been above question. We were the first to establish a chemical and physical laboratory for testing merchandise. We made certain of quality while others were content to guess. Today, in addition to our greatly enlarged testing laboratories, we employ nationally known chemical and mechanical engineers to insure the quality of the goods offered to our customers.

Go through Sears, Roebuck and Co.'s catalog, page by page, item by item, and compare prices. That is our answer to leadership in SAVINGS.

With the buying power of the World's Largest Store, with the elimination of unnecessary middlemen, with the control and ownership of factories, we bring our prices down to the lowest levels. At home or abroad, wherever merchandise is bought, you will find a representative of this store, alert to every opportunity for reducing prices. We pledge that you will always make the greatest savings here.

Service--Quality--Savings---these three, and LEADERSHIP in these three, have made us the World's Largest Store.

It is a leadership that remains unchallenged. No one approaches our service; no one excels us in quality; no one can offer you the values you will find here.

R. E. Wood
President

SERVICE

Mr. R. E. Wood, President,
Sears, Roebuck and Co.

Dear Mr. Wood:--At a meeting of all of the managers of Sears, Roebuck and Co.'s mail order distributing stores we have decided to request you to advertise to our customers our new and improved service. You know that we are giving better than twenty-four hour service; you know that we are utilizing not alone our own organization for the betterment of service, but that we are co-operating with the United States Government to take full advantage of their facilities for the speedy handling of mail; that our schedule of orders is planned to meet railroad train schedules.

We feel that our customers know that our service is the best. But we also feel that our catalog should very definitely and very conclusively point out our leadership and should promise to our customers, as we promise to you, that no other store will ever equal our service. You may depend upon that.

L. H. Beall, Atlanta
R. M. Langrain, Dallas
W. L. Acroyd, Memphis
T. J. Carney, Philadelphia
C. M. Henry, Boston
R. J. De Motte, Kansas City
C. A. Woods, Minneapolis
G. M. Berry, Seattle
C. S. Roberts, Chicago
C. R. Cook, Los Angeles

99 out of every 100 orders we receive are shipped in considerably less than twenty-four hours.

QUALITY

Quality is the foundation upon which rests success. It does not matter how swift the service nor how low the price if the quality is not there. The measure of success which we enjoy, the nation-wide reputation for fair dealing which is synonymous with Sears, Roebuck and Co. has been gained by knowing exactly what we sell and selling only that which can be honestly and truthfully guaranteed.

Backing our own extensive laboratories in their research and microscopic analysis of merchandise offered to us, are the facilities of great engineering schools which are constantly at work for us testing, rejecting, perfecting. Add to this the information which is available to us through that great governmental force—the Bureau of Standards, with its hundreds of experts—and you begin to picture the ends to which we go to insure quality.

No other store goes so far in its testing and examination of merchandise before it is offered for sale.

We guarantee the quality of our goods.

SAVINGS

Twelve million customers prove that savings are always greatest at Sears! And twelve million people can't be wrong!

We are willing to let you be the judge. We know that, quality for quality, our prices are always lowest.

Our buyers have gone into the markets backed by the largest buying power in America, and they have utilized this tremendous force to bring prices to even lower levels, to make our values even greater. If you will make this catalog your buying guide for all the things you are going to need, your savings will run into hundreds of dollars. Every item must show you a saving. We guarantee it.

DESCRIPTIONS *for* OPPOSITE PAGE

(A) **31R5000—Red, Yellow and Blue (As large illustration)**
31R5001—Blue, Yellow and Tan (As small illustration) **$8.98**

Here is a chic frock of fine quality All Silk Flat Crepe, that blithely expresses Springtime in its colorful flower print and graceful new surplice collar of Paris inspiration. The price is very low as you would expect it to be—at Sears.

Beige All Silk Georgette Crepe edged with handsome imitation Venise lace, fashions the smart collar, vestee and cuffs. It features a skirt yoke of unusual design, trimmed with Georgette covered buttons.

Women's Sizes 34 to 44 inches bust measure. State size. See measuring instructions on page 5.
We pay the postage.

(B) **31R5005—English Red**
31R5006—Navigator Blue (Med. Blue)
31R5007—Black **$9.98**

Stressing youth, stressing line, stressing beauty—presenting in short, complete smartness; this frock of All Silk Flat Crepe is an unparalled value at this modest price.

It has a soft fichu-like collar with an inset of ecru Venise lace, a softly bloused bodice, and a skirt that flares gracefully from its curved yoke. Modernistic pins add smart accent to the collar and hip bow.

Women's Sizes—34 to 44 inches bust measure. State size. See measuring instructions on page 5.
We pay the postage.

(C) **31R5010—Marron Glace (Cocoa Tan)**
31R5011—Black **$9.98**

A New York frock of singular distinction increases the smartness of its style by the suave shimmering beauty of its fabric. Fashioned of All Silk Crepe Satin and made with a bloused bodice, swathed hip line and a noteworthy flared overskirt of intricate cut. Dainty ecru French lace outlines a "V" neck, front and back. Rose beige Georgette Crepe is used for the jabot and to face the back "V". Has Rayon bodice lining.

Women's Sizes—34 to 44 inches bust measure. State size. See measuring instructions on page 5.

(D) **31R5015—Garland Green (Med. Lt. Green) with Polo Green (Med. Dark Green) Trimming** **$7.98**
31R5016—Marron Glace (Cocoa Tan) with Rose Beige Trimming
31R5017—Navy Blue with Monet Blue Trimming

The discriminating woman chooses for Springtime wear, the tailored frock of All Silk Flat Crepe. This smart model displays faultless workmanship, the distinct imprint of New York origin—and yet costs only $7.98.

A darker shade of the fabric is used to emphasize the pointed trimming on bodice and cuffs. Curved tucking and jewelled pins on the shoulder and waist bows successfully add to its charm.

Women's Sizes—34 to 44 inches bust measure. State size. See measuring instructions on page 5.

(E) **31R5020—Tan Fancy Print** **$4.98**

A practical, gracefully styled frock which will give excellent service, is modishly fashioned of good quality, durable Printed Silk Warp Crepe. Solid color Silk Warp Crepe pipes the V shaped yoke and trims the jabot. The draped girdle reveals rows of shirring from which the skirt front falls in a circular flare.

A drooping flower of self material adorns the shoulder. Dainty buttons and a buckle complete its effectiveness.

NEW SMART COATS FOR SHORT

If you are of short stature (5 feet 2 inches or less in height) a woman's regular size coat will *not* fit you correctly. It will be too long; both in sleeves and body and the waistline and trimming will be too low on your figure. Neither will a Misses' size coat fit you, unless you are blessed with a very slender figure.

Our special department of coats for short women offers styles that are scientifically and artistically styled and designed to fit perfectly your individual figure. No alterations are necessary—perfect fit is guaranteed in these smart styles, and they are the greatest coat values you've ever seen as well.

Correct Foundation Garments to Keep Your Figure Young...

WE PAY POSTAGE

IT GIVES ME GREAT PLEASURE TO RECOMMEND to you the wonderful corsetry shown on these pages. Here are garments for every figure type. Well dressed women have long since recognized the need of wearing perfect fitting foundation garments. To assist you in the selection of the right garment for your figure, we show in silhouettes the seven normal figures of Modern Corsetry. One of these silhouettes you will recognize as typical of your own figure. The catalog description suggests which figure types each garment is particularly suited to. Just as one hat may become two or three faces, so one corset will meet the requirements of two or more different figures. Be sure that the garment you select is suggested for your figure. In reordering any of our garments that you have found suitable, *be sure to state the catalog number and size stamped inside the old garment.*

On first orders, please do not guess your size—always use a tape measure. If possible stand before a mirror and see that the tape is straight all around. *State clearly all measurements asked for.*

beautiful Flexing Front Health Belt Combination

7 REASONS *and More Why You Should Buy It*

1. It is exceptionally well made of fine quality, pink Rayon brocade with side panels of lustrous Rayon knitted elastic.
2. It heathfully slenderizes the average and heavy figure.
3. Flexing Front Health Belt joins far enough back (in the outer garment) to provide comfortable and correct support.
4. Flexing Front Boning, side lacings and also strong elastic inserts insure adjustability and comfort.
5. The curved, slightly "cupped" belt gently molds the figure, while the outer garment gives slim unbroken lines.
6. Unobtrusive, boned reinforcement in outer garment for unruly diaphragms.
7. Large elastic gore in lower front insures comfort in sitting position.

Other good reasons are the detachable shoulder straps, full length boning through sides and back, and fine supporters.

THE OLD LINE

THESE MODERN GARMENTS BRING YOUR FIGURE UP TO DATE

THE NEW FIGURE

The "Y. B. Stout" foundations are designed to give you a slender and fashionable figure. These garments are tremendous favorites with women the country over because they are very comfortable and make your figure look more youthful. Note the small illustrations at the left. The perfectly designed unobtrusive inner belt hooks at center. Of strong coutil it is well boned and has elastic inserts to hold and reduce abdominal flesh comfortably. The outer combination replacing the corset and brassiere fits snugly over the inner belt, giving a graceful, stylish line. This outer part is boned through back and sides and is fitted with a boned inner pad at front to flatten the diaphragm. It also has a fine quality (one-piece) mercerized elastic section over each hip. Detachable Rayon shoulder straps are fitted with elastic inserts, and are adjustable. *We pay the postage.*

Two Famous Slenderbelt Models
PERFECTED BY Dr. Wine

Wonderful results are being obtained from Dr. Wine's Patented New Slenderbelt. It lifts, it supports, it adds grace, poise and comfort to the body. Faulty posture is corrected through the use of Dr. Wine's belt. Posture corrected brings about a natural reduction of abdomen, hips and thighs. The Slenderbelt-Lift straightens the abdominal wall, removes strain from burdened muscles and allows them to contract to normal. 18R415 and 18R416 are complete Dr. Wine "Slenderbelts" hooking at the left side. The lower front, sides and smooth closed back in these two models are of fine pink coutil and the upper front is famous "Armor-elastic." 18R388 foundation garment has inner support made on the Dr. Wine "Slenderbelt" principle. This supports hooks in the center and has surgical elastic at top front. We offer these scientific garments at remarkably low prices and guarantee you will be pleased.

New Slenderbelt with Hip and Thigh Control

Dr. Wine Foundation Fitted with Famous Slenderbelt

The New Improved Dr. Wine Slenderbelt

is fitted with hip and thigh control feature, as shown in the large illustration at the left. This feature is an actual part of the garment and fits directly over the bottom front, as clearly shown in the smaller view. **The Dr. Wine Slenderbelt reduces hip, thigh and abdominal girth** and is recommended for dress, street, sports or general wear. Upper front is famous **patented "Armor-elastic"** (an unusually fine, smooth quality), which launders freely without injury and **wears three times as long as ordinary elastic.** Lower front and smooth closed back of strong, pink coutil. Fastens at left side with hooks and eyes; also has two convenient lacings at each side so it can be adjusted gradually to the newer figure. Fitted with a "Surgic-Alloy" supporting steel at center front which is easily bent or cupped to fit the abdomen. Short, light diagonally placed boning at bottom front imparts the same support as a gentle lifting with the hands cupped under the abdomen. Has stays all the way down through back and six fine "Armor-elastic" hose supporters.

To Order Your Size in Slenderbelt Models: Take waist measure over your corset and deduct 2 inches to allow for lacing; also state hip measure taken about 7½ inches below waist.

(C) Stout
and (D) Short Stout

Introduced by us recently, this model has proved to be an immense favorite the country over. Finely made of pink coutil. Special lacers at back with strong straps are instantly adjusted to suit wearer. A pull on these exerts a gentle inward, upward pressure on abdomen, placing organs in their correct position. Recommended for general wear, for reducing the abdomen, and as an after operation belt. Hooks at side front and is moderately boned. **Length, front, 8½ to 9¾ inches; back, 13½ to 15 inches; smaller sizes are shortest at front and back.**

18R191—Even and odd sizes, 24 to 36; also even sizes, 38, 40 and 42 inches waist. To order correct size, measure around waist over clothing and deduct 2 inches.

IMPORTANT FACTS ABOUT HAIR QUALITY

Women are not usually well informed on the many grades of human hair. As a result, hair is often offered under misleading names. Even experts find it difficult at times to distinguish the difference in quality. Inferior quality becomes streaky, straggly or brittle very quickly. Our hair qualities are guaranteed exactly as described. This is especially valuable protection to you when buying this kind of merchandise.

HOW TO ORDER HAIR

Send full length sample cut from head close to the roots (combings are not good samples). **For gray mixtures,** if the shade varies in front and back, send two samples stating preference or we will send average match. **State whether you wish roots, center or end matched.** We match center unless otherwise instructed.

WE SHIP PROMPTLY

Since each order is especially made up to match your sample, we sometimes require from 8 to 12 days to deliver orders, depending on the shade. Each order is given utmost attention and care, to match your sample exactly.

How to Order Women's Sweaters

Important—Read!

When ordering sweaters be sure to measure over fullest part of bust and order size 2 inches larger than your actual bust measure over dress. Do not pull tape too tightly nor let it slip down in the back. You will find a wonderful selection of styles on this and the opposite page.

A STYLE FOR EVERY FIGURE

How to Order Brassieres Important!
State Bust Measure!
Straighten back and shoulders; place tape measure around body under arms, pull smoothly, not too tight, over fullest part of bust and give actual measurement in inches. If your bust measure is 35 inches, order size 36; brassieres are made in even sizes only.

COATINGS of SATIN

Popular Black Satin Coating

$2.69 A YARD *Postage Paid*

A striking fabric! At a moderate easily afforded price! Black satin is the always correct coating for spring and summer. Equally smart for dress or every day wear. Its weave is remarkably tight, firm and close, and that means the glossy brilliant surface of the cloth will not roughen or pull. This will surprise you with its lasting strength and longtime usefulness. Straight, slim coats, draped wraps, tiers, tucking, furs, braid, velvet ruching, gayly colored linings, this material is effective with them all! It is a splendid, genuinely good quality that has satisfied thousands of our customers.

14R6946—Width, about 54 inches. **Black only.** *We Pay the Postage.*

Satin for Coats and Dresses

$1.95 A YARD *Postage Paid*

An easily handled quality in one of the most demanded silks of the season! This is a very fine, very firm satin that can be smoothly adjusted to the flawless, perfect fit required in a coat. An especially constructed satin weave, of a sturdy tightness and strength that withstands the hardest usage. This is really a splendid grade of material; smooth, glossy and handsomely lustrous of surface; genuinely **good** in texture. Use this fabric for dresses or coats of the tailored or dressier type. Try it! Examine the quality for yourself! You'll be delighted with this long wearing, wonderful "workable" fabric!

CELANESE REG. U.S. BRAND PAT. OFF. FABRICS

THE MODERN DRESS

BEAUTIFUL BEYOND COMPARISON

DURABLE BEYOND BELIEF

THE FABRIC MARVEL of the age! Gorgeous, rich, glowing colors that cannot dim or fade! Pure, soft, lustrous fabric that actually repels soil! Celanese fiber will not absorb dirt, stains or coloring. Fruit juices, perspiration marks, and even grease spots, only cling to the surface and are quickly washed away. These beautiful Celanese dyes are specially prepared to penetrate the material permanently. Once in, they never come out; they are fast both to suds and sunshine. Celanese white is always white; it will not yellow or discolor with age.

And Celanese is durable! Strong, firm, washable! The same clear, fresh exquisite colors, the same rich suppleness, the same soft, pearly luster lasts through the entire life of the fabric! These wonder-materials will not shrink or stretch, they will not fade or mildew! In all the history of weaving, "washable" never meant so *much!*

MISS DOROTHY KNAPP
Proclaimed the World's Most Beautiful Girl

Exquisitely beautiful herself, Miss Knapp here wears a favorite dress of the new incomparably lovely Celanese, which theatrical producers find so rich, serviceable, and economical for costuming and staging elaborate productions.

Rich, soft, deep colors! Full, silky, lustrous surface! This is an ideal velvet for coats! Its thick, erect silk pile is firmly fastened to a close, tightly woven cotton back. That means added strength and added firmness in a beautiful, elegant, highly fashionable fabric! This velvet has the fine sturdiness often desired in a coating, while it reveals only the beauty of an all silk face. Velvet suits, jackets, ensembles, daytime and evening coats can all be smartly fashioned of this handsome weave. For every blouse, dress or coating need, for woman, miss or little child, this velvet is both lovely and serviceable. A wise and thrifty choice in every case and besides, **we pay the postage.**

The World's Greatest Business and The World's Largest Store

AGRICULTURE . . . with its mighty army of 27,000,000 souls, producing crops worth $13,000,000,000,00 annually, and supplying the necessities of life to over 100,000,000 people, is the greatest business in the world.

Sears, Roebuck and Co., as an institution, have always been vitally concerned with the farmer. We have purchased from him directly and indirectly millions of dollars worth of his farm products, his fruit and vegetables, his field crops and live stock, his hides and wool and cotton. We have sold him countless thousands of his daily needs—for farm and home. The two great industries for years have gone hand in hand, and the relation has always been pleasant and profitable. But the association did not stop there. It has gone away and beyond.

The Sears-Roebuck Agricultural Foundation was organized to do for the farmer whatever it could—to decrease his burden and increase his income. It was the gesture of friendship and common bond from one great industry to another.

The Agricultural Foundation, born five years ago, continues to grow. Our Farm Service Department will answer your perplexing farm questions on any subject. The Home Service Department will work with the woman on the farm on matters pertaining to the home, the garden and the children. We will continue to keep you informed on the facts concerning agriculture and, through the medium of great national exhibits and their graphic example, to bring to the attention of every farmer in America the lesson of improved products and increased prices.

Sears, Roebuck and Co. will be on the air over Station W L S four times each day. We will continue to bring you the weather reports, home-makers' programs and the best in music and entertainment to while away the evening hours.

We want to rejoice in your prosperity and share in your problems. We want to be a part of your everyday life.

You represent the world's greatest business, and we the World's Largest Store. We have much in common.

For The New Colorful Rugs-Use Maysville Rug Filler

Rug filler, or roving, is made of loosely spun cotton, about the thickness of a lead pencil. It's soft and lustrous and the most striking results are obtained by combining different colors of the rug filler in the body of a rug or for border effects. Used with Maysville carpet warp it makes firm, strong good wearing rugs that lie flat on the floor. Used, too, for hooked rugs. We will be glad to send you samples. **We pay the postage.**

SHEETS and PILLOW CASES

A Standard for 20 Years Among Homemakers

CONSISTENTLY LOWER PRICES SAVE YOU MONEY ON THIS SERVICE-GIVING BRAND

SEARS, Roebuck and Co. is not a "fair weather" store—seeking to take advantage of every unusual situation which might increase demand with corresponding increase in price—we continue our low prices in the face of manufacturers' decisions that sheets and pillowcases have been underpriced for several years. *They* have advanced prices. *We* continue our low prices because our foresight in buying enables us to do so. Don't judge by price alone; compare Launderite full standard quality, *bleached white*, pure finish, with brands offered elsewhere; you'll marvel at the savings.

Lady Fair BRAND GUARANTEED FOR 5 YEARS

ANYBODY Would Be Willing to Spend 32c EACH per Year for Guaranteed Sheets - - - -

WARRANT BRAND GUARANTEED FOR 3 YEARS

When you buy sheets and pillowcases that are guaranteed for a certain period of years, it's always wise to consider what they cost you per year! You'd do that were you purchasing a house. Only in this case you pay a comparatively small sum for a quality that would cost you much more in the regular way. For instance, a sealed package of six Ladyfair Sheets in the 81x90-inch size cost $9.48, or $1.58 each sheet. These beautiful sheets are guaranteed for five years' wear, which means less than 32c a sheet per year over the period of five years! Isn't that the wisest, most economical, farsighted buying you've ever done? Order today for five years of unquestioned satisfaction

Here's our astounding service guarantee. The only conditions are that you exercise ordinary care in washing, that you use the six sheets or six pillowcases in weekly rotation so that each sheet and each pillowcase in turn is given full chance to prove its worth; this is the practical sensible method most housewives use. **That's why guaranteed sheets and pillowcases are sold only in packages of six.** Having complied with these simple conditions, if our guaranteed sheets and pillowcases fail to give satisfactory service, return to us with the guarantee (include your full name and address) and we will replace them or return your money. These low prices include everything. **We pay the postage.**

Lady Fair Guaranteed 5 Years

Ladyfair Sheets and Pillowcases are snowy white and fine enough to delight the most fastidious, and durable enough to please the thriftiest housewife. Made of selected long staple cotton; fine, close and smooth in weave; absolutely no weighting. Distinctive in appearance, remarkably durable—assuredly the best for your money!

We Pay the Postage.

You will have to look around a great deal to find the equal of this economical Work Shoe, and even then we doubt if you will find one as good for the same price. Only the best dark brown chrome tanned leather (commonly known as elkskin), noted for its long wearing quality, has been used in the uppers. Soles are double thickness at points of greatest wear, the outer of oil tanned leather to make it dampproof, the middle sole of good quality chrome tanned leather. Live, springy rubber heel. It is values like this that have helped to make Sears the work shoe headquarters of increasing thousands of men every spring and summer. It's easy ordering now—**no postage to figure.**

This new Shoe proves conclusively that a work shoe can be low priced and still be very dependable. It is made of mustard tan color derby grain leather, soft, comfortable to the feet and unusually long wearing. Has doubly thick soles where the shoe gets the most natural wear. The outersole is Sure Grip "Compo" and you know how that wears, almost twice as long as leather, while the middle sole is of chrome tanned leather. Live rubber heel for more wear and comfort. Buy here and always save more.

Lightweight Work Shoes, but they're **heavy duty wear shoes!** They'll give you lasting comfort and long time service because we know how to build shoes that will stand a lot of rough use and still feel good to your feet. You'll find our prices remarkably low, too, for such quality. Moreover, **we pay the postage!** The soft, brown suede-like split leather (known generally as "muleskin") uppers are exceptionally tough. Has two soles where the most wear comes—outer of chrome tanned leather, "Compo" middle sole. Leather heels.

The man who wants to save the most on work shoes generally buys them here. You, too, will find that every penny spent for Sears Economy Work Shoes will bring you fullest returns in service and satisfaction. Here is an outstanding example. This shoe with its mustard tan color derby grain leather uppers, its Sure Grip "Compo-Soles" and its weatherproof caulk welt can be depended upon for good long wear in all kinds of work and weather. The broad roomy moccasin toe and the rubber heel are comfort features every man appreciates. This low price (**and we pay the postage**) is much less than you generally pay at average stores for shoes of the same quality.

67R4630—Men's and Big Boys'. Sizes, 6 to 12 ..... **$2.39**
67R5317—Boys'. Sizes, 1 to 5½ **2.10**

Another of our great, big work shoe bargains. They'll give you solid comfort and what a lot of good, hard service! And you'll find ordering so much easier now because **we pay the postage.** We've discovered the way to manufacture sturdy work shoes without their being stiff and awkward. We use soft but tough brown split leather in the uppers and make the soles of stanch, long wearing chrome leather—that's a combination for you! These soles are double thickness for extra wear and both soles and heels are nailed so securely to the uppers that they won't pull loose.

67R4616—Men's and Big Boys'. Sizes, 6 to 12 ..... **$2.39**
67R5304—Boys'. Sizes, 1 to 5½ **2.09**
Wide widths only. Be sure to state size.

Work Shoes should give you at least two things—sturdy, reliable wear and complete comfort. And we've added a third feature—a price much lower than you could secure elsewhere and obtain the same quality. Give these shoes a good tryout and we know you'll be as loud in your praises as thousands of other satisfied men and boys have been. The double tanned uppers of smooth brown split leather are unusually pliable and roomy, soft moccasin toe and springy rubber heels give your feet that easy, restful feeling.

Light Weight ~ Long Wear

Give your feet a treat! A Work Shoe that has light weight construction but is really more durable than others, which are heavier and coarser. There's no need now to buy great, clumsy shoes in order to get the best kind of wear from them. For these are snappy looking, the kind that are rugged but extremely comfortable. And when you compare our prices with others you'll be amazed at the big saving you can make by buying here. Brown soft, double tanned leather uppers; medium weight Wearflex "Compo-Sole," plus an extra leather middle sole sewed to it with strong tough thread; springy rubber heels. **We pay the postage** on shoes.

DURABILITY in Extra Measure

67R4625—Sizes, 6 to 12. Wide widths only. Be sure to state size. *We Pay the Postage.* **Postpaid $3.65**

Durability and comfort have been carefully wrought into every square inch of this sturdy Work Shoe. It justly deserves this prominent display among the Work Shoes of the Nation. First of all, it is made with a broad soft moccasin toe which allows plenty of roomy comfort for your toes. Second, the blucher pattern produces a snug comfortable fit over the instep. Third, the wonderfully soft golden color chrome tanned (elkskin) uppers half lined with heavy white drill, feel like a glove and are exceptionally serviceable. Fourth, the NO-MARK SOLE (so called because it will not mark the floors) will outwear any sole leather made. Fifth, the **special built-in steel arch support.** Saves foot strain and keeps away that tired feeling. Sixth, our low price, and now we pay the postage, will seem but very little for the long service you will get out of this shoe. Rubber heels.

Built by the newest improved methods of men's shoe making, this Service Shoe is one of the most practical as well as one of the most economical shoes of its type ever put on the market. Look at its three outstanding points of construction, illustrated and explained at the right. The one-piece upper (figure 1) locks into the patented vamp (figure 3) by means of the tab (figure 2). The upper is then sewed to the vamp all the way around. According to this method the top of the shoe is practically only three pieces of leather—upper, vamp and tip—leaving no unnecessary seams to hurt your feet or to pull loose as the shoe gets older. Made of neat appearing, smooth, black, extra durable kip leather shaped over the popular army style last. Has the nationally known Goodyear Wingfoot heel and outersole about which you've been reading so much lately in the advertisements of several leading magazines. You already know these soles are extra flexible, that they are guaranteed by the manufacturer under a positive guarantee of good long wear. There's also a leather middle sole and a weatherproof caulk welt to keep out dampness. GENUINE GOODYEAR WELT construction. Get yourself a pair. Use them for all jobs where you want good looking and sturdy footwear. Wear them hard. They'll take all the wear you give them and then some more.

Whatever sport or game you are engaged in, out of doors or in the gymnasium, on wet grass or slippery floors, you can be sure of your footwork at all times in a pair of these very latest Sport Shoes. **They are the best shoes of their kind that you can buy at any price.** Their moulded sole and heel are made doubly thick at the points where a shoe gets the most wear and their cutout pattern serves as a vacuum which clings securely to all surfaces. They are made of good grade white or brown canvas, black trimmed with a red and black double foxing which strongly fastens the soles to the uppers. Reinforced toe cap, ankle patch and ribbed bumper toe furnish added wear and protection. Lace to toe feature produces snug fit all the way up the foot, giving real support to your arches and ankles—you know how important that is in active sports.

Men and boys everywhere are making Moulded Sole Sport Shoes their leading choice for summer sports and gym work. They choose it because it's a sole that can be depended upon for long service because it is double thickness at the points where a shoe naturally gets the most wear. They also know that, because of its special construction, the cutouts create a vacuum which makes the shoe "hold its own" on the most slippery or wet surfaces. This gives you a confidence of sure footing all the time in the most energetic sports where canvas footwear is used. These shoes are made of good quality white canvas with black trimming. With lace to toe pattern the shoe can be firmly adjusted to fit snugly from top to toe insuring proper support at ankle, at arch and at the ball of the foot. The ankle patch and extra toe cap give added reinforcement where needed. Try a pair of these shoes this summer. Get them for your boy, too. He's sure to tell others about them. You'll be more than satisfied with their long wear and the saving you make.

The biggest favorite of all the rubbers we sell. Women, girls and children like its dressy, bright shining finish, the storm tongue which protects your shoes from the splashing of mud and water and the semi-rolled edge sole and heel which insures long wear. It is strongly reinforced at toe and heel and at the foxing where the sole is joined to the uppers. The turned-up heelpiece makes them easy to remove and prevents scuffing. The huge quantity we sell every spring and summer season enables us to offer them at such surprisingly low prices—much less than you generally pay for first quality rubbers. Designed to fit shoes as shown in Figure 4 at bottom of page.

Proper Care of Rubbers

Wear the right shape rubbers for your shoes. Rubbers too short or too narrow will break at the sole; if too large they will wrinkle and crack. Rubbers should be kept clean and in a dark place when not in use. Oil, milk or grease of any kind will ruin rubber.

LEADER of the field—the instant it appeared! This is so new, so spectacular, so brilliant a stroke of VALUE giving that it overshadows all opportunities of its kind! For, after all, no other store could possibly expect the tremendous coast to coast business we do in Rayon underwear! Thousands of women from all parts of the country supply their lingerie needs here. Francine bloomers are made of new, strong, firmly knit Rayon yarns. They are soft, full, lustrous garments that retain their shape and strength through months of washing and hard wear! Made in full sizes, flat locked seamed and carefully tailored with a double fabric gusset in the seat. Here is the bloomer we recommend for daily wear! We know that if once you see the value offered here, if you compare it with other qualities at the same price, you will agree that there is NO greater Rayon bloomer bargain anywhere in America.

Anne Williams Says:

"Unhesitatingly, I endorse Francine, the economical bloomer with its special features. Perfect fit in any position! Quality, service, beauty and fine workmanship at very lowest prices. Read about them. Study the action illustrations! Better still, send your order today. Try them. You will agree with me and order them regularly thereafter."

Anne Williams Style Specialist

Notice These Four Features!

1—Firmly stitched, smooth, flat locked seams throughout the garment.
2—Very finely knit, close textured Rayon fabric.
3—Good, live resilient elastic at waist and knees.
4—Double fabric gusset for perfect freedom and comfortable fit.

These five features have made Positive-Wear Nainsook Suits extremely popular with thousands of men:

1—**Special elastic reinforcement across the knit band where strain is greatest.**
2—**Double straps extending the length of the back to insure extra protection.**
3—**Triple stitched seams—will not rip.**
4—**Specially tailored and designed seat that will not gap.**
5—**Bar tacked at all points of strain.**

Compare these suits with others selling at around our prices. Note the difference in quality and fit. We're sure you'll find them the greatest value you ever bought. Carefully tailored of cool pajama check or fancy striped nainsook, they'll instantly meet with your approval. You'll like their comfortable fit, for they're correctly sized—will not pull or gap at points of strain. And that means longer wear. They'll launder well, too. Hot suds and frequent washings will not injure their smooth freshness. The fact that we've sold thousands and thousands of these Positive-Wear suits is proof enough of their satisfying qualities.

You'll like the loose, easy fit of these Comfort Blouse Back Suits. Instead of a knitted elastic fabric across the middle of the back, we've made them generously roomy and reinforced them with an extra strip of cloth, double sewed for added strength. They'll allow you plenty of freedom in any position and won't bind or gap. All points of strain are carefully bar tacked. Made of fancy striped madras in your choice of two popular styles.

You men who appreciate exceptionally fine underwear will like these suits of genuine imported English broadcloth. Stripes are now particularly popular in men's underwear and we're offering you a choice of three different colors, or plain white if you like that better. The material is highly mercerized, and repeated washings won't remove its silky sheen. It's sturdy and durable, yet soft to the touch and will give you many, many months of wear. Our low price should appeal to you, too, because suits of this splendid quality would cost $1.25 to $1.50 elsewhere, and remember, **we pay the postage.**

Exceptional values! Quality and prices considered, we doubt if you can equal them elsewhere. They're very popular with many men who prefer this kind of underwear for year round wear. And we're offering you a choice of three styles to suit your particular taste. Some men choose the three-quarter length leg style. This one is constructed so the cuff extends just inside the top of your sock, keeping garters from contact with the leg and at the same time doesn't show at the ankle. You'll appreciate the texture of these well made garments knit from high grade combed cotton by one of the country's best manufacturers of men's underwear. This assures you a comfortable, smooth fitting suit that won't sag, drag or pull. Great care has been taken in finishing them to give you the kind of features and details found only on higher priced underwear. The flat locked seams throughout mean longer wear. Good grade pearl buttons add much to their neat appearance as does the Rayon trim around the neck and down the front. When comparing prices, remember **we pay the postage.**

Crammed Full of Style and Value

Boyville

You'll find this suit with its lively style and splendid material and workmanship a purchase you'll never regret. The fine all wool and silk cassimere with Rayon decorations is in the new wood shade (a soft medium brown), one of the favorite spring shades. Vest is the snappy three-button double breasted style with collar, and the knickers are the very latest plus two golf style (cut fuller than the regular style) with stylish looking pleats sewed in waistband in front. Coat features the long rolling peaked lapels. Nicely lined with long wearing stylish Rayon alpaca. It's value—plus! **SIZES—7 to 16 years. State age size. We pay the postage.**

40R3237—Wood (Med.) Brown All Wool Cassimere..... $9.75

Made from a firmly constructed all wool and silk Boyville cloth which is much stronger than most fabrics used in boys suits. We selected a neat medium gray overplaid pattern that will not readily show soil, but at the same time is very attractive. Then we had it made up to our rigid Boyville specifications with all the special features listed on page 272 except double knees which are not wanted in plus two knickers. The coat is made in the two-button single breasted style and has strong Gibraltar alpaca lining. Vest is regular five-button. The newest plus two knickers with pleats in front complete this good looking extra service suit. **SIZES—7 to 18 years. State age size. We pay the postage.**

40R3256—Gray Boyville Suit With Vest..... $10.50

Boyville

New Boyville With Pleated Vest and Pleated Trousers

When you find the very newest style combined with all the desirable features of our famous Boyville suit then you have a combination that simply can't be beat. Every line of this suit fairly radiates style. Just look at the easy flowing lines of the two-button coat with its long soft rolling lapels. Then there's the Tattersal vest—the newest of the new—a five-button single breasted style with fancy flaps on the lower pockets and a pleat from the upper pocket to the bottom of the vest. Note also the pleated trousers which are all the rage. There's an air of distinction about the whole suit. Material is a very firmly woven all wool and silk cassimere, specially tested and woven to conform to our rigid Boyville specifications in a desirable novelty weave pattern. Coat and vest are lined with Gibraltar alpaca, the strongest lining material to be had. This suit has every Boyville feature except the double seat, knees and elbows which are not wanted in a long trouser suit. **SIZES—9 to 18 years. State age size; also give chest, waist and inseam measures. We pay the postage.**

Such a Test! Of Strength and Toughness!

14 Husky Men Couldn't Tear This New Perfected

HERCULES MOLESKIN SUIT $8.85

We Pay Postage

A Giant in Strength—A Giant in Value

Any fabric would have to be a giant in strength to stand up under the astonishing test which we gave this striped moleskin cloth. Fourteen husky men took this fabric, pulled, strained and twisted with all the strength at their command—and COULDN'T TEAR IT! There is a stout hearted ruggedness woven deep down into the very core of this fabric. All the resources of our chemical laboratories, buying organization and manufacturing connections have been working overtime to produce this wonderful suit which has proved such a sensational success. It's a success not only from a long wearing standpoint, but for its neatness of style and fabric as well. Any man in practically any walk of life can wear it for every day anywhere, with perfect confidence. As for the Value, it is a tremendous one even for the World's Largest Store—no stone was left unturned by our buyers in this purchase, a mammoth order at just the right time, keeping the manufacturer busy during usually dull months—all these things enabled us to price this suit way lower than we had ever dreamed possible. Made of neat gray striped moleskin in sack suit style. Has notch lapels, three patch pockets. Has regular five-button vest. Pants are cut full and roomy, with cuff bottoms. Stoutly reinforced at every strain point. *Sizes, 34 to 44 inches chest, 30 to 42 inches waist and 29 to 34 inches inseam. State chest, waist and inseam measures. For extra pants to match see Number 41R765 listed below. We pay the postage.*

41R421—Gray Striped Moleskin Suit $8.85

Made for Hard Wear

Hercules Moleskin Pants

Same sturdy construction! Same tough moleskin material as used in the Hercules Moleskin suit shown above. Included in our mammoth purchase of this cloth was a large order for extra pants. This will enable the man who does not want the complete suit, to order a pair of pants or an extra pair with his suit at the same astonishing price saving. Made with cuff bottoms in neat strong gray stripe moleskin cloth. We have made them in the strongest way possible, reinforcing and bar tacking at every point of strain.

SIZES—30 to 44 inches waist and 29 to 34 inches inseam. State waist and inseam measurements. We pay the postage.

Skinner Satin Lined Serge

(C) You can tell a man by the company he keeps—and you can tell this suit by its fine lining. Skinner's satin is known everywhere for its extreme good looks and long wear. It's guaranteed for the life of the suit! Only the best suits are lined with this material—suits that ordinarily sell at a great deal more money. Yet, in spite of this amazingly low price, this suit is in every way worthy of the fine lining. It is tailored of a very fine quality, good weight, indigo dyed (fast color) all wool serge, a wonderful fabric! And it is tailored right, both in point of style and of service. Truly it is a suit you will be proud to wear anywhere, in any company. The three-button coat with its neat, tasteful lines and its soft rolled lapels, is cut to fit right and drape right, and the cuff bottom trousers hang straight from the hips as they should. Regular vest lined with de luxe permanent finish Venetian. SIZES—34 to 44 inches chest, 29 to 42 inches waist and 29 to 36 inches inseam. State measurements and include age, weight and height. We pay the postage.

87c Postpaid

Read about and note the illustrations of the most unusual and racking test any work shirt was ever subjected to. This test was witnessed and attested to by a Notary Public whose letter we have reproduced on opposite page. Men, here are **ACTUAL FACTS** that you cannot afford to ignore. Laboratory tests show that the breaking strength of Hercules Chambray fabric is 62 pounds per inch. And that the breaking strength of the Triple Stitched seams is 58 pounds per inch. Such inbuilt strength and rugged, unvarying quality makes **Hercules** the Choice of a Nation. ***We pay the postage* on all Hercules shirts.**

A new day a new work shirt. Hercules has scooped the shirt industry and made a real step forward in work shirt construction by introducing the dress Hercules. Read about it in the panel below!

Postpaid **96c** **33R638**—Khaki tan.
Sizes, 14½ to 17. Half sizes. **State size.**
We pay the postage.

Hercules Work Shirts are still flying high on public opinion and preference. Part of the **Hercules** popularity is due to the variety of fabrics in which they are offered. These shirts of sturdy sulphur dyed khaki twill are very popular for work. Widely used for hiking, camping and other outdoor activities. Coat style.

Extra Sizes

The Only Unlimited Guarantee!

See Next Page

And now, guaranteed without any limit as to time or mileage! YOU alone decide how far ALLSTATES should go. That's what we think of them. That's how we guarantee them. Be sure to read the full guarantee on the second following page.

We did not want to limit the mileage to 15,000, to 16,000 or even to 17,000 miles. For we were confident that ALLSTATES would deliver more mileage than any other standard guaranteed tire in their class. We wanted them to stand alone in quality, as they stand alone in value.

No tire in America competes with ALLSTATE. Dollar for dollar you can't buy near as much elsewhere as ALLSTATE delivers. We're proud of them and we're proud of their record. They have made us the World's Largest Distributers of Tires direct to the user.

1 every other second

Every other second of every working hour, another ALLSTATE takes the road. Here is a record never equaled by any tire regardless of make or price. For, you know, ALLSTATES are only three years old.

There must be a real reason for this.

And there is!

ALLSTATES set an entirely new standard in quality and value. Due to our economical distribution, and our huge resources, we are always able to sell tires at prices far below the prices others ask for tires of inferior quality.

Because of this, ALLSTATES swept the country from one end to the other. Time and time again the output of the factories has been enlarged to meet the growing demand. And almost before the enlarged facilities were ready, it was again necessary to increase production. Every day more ALLSTATES are being sold. And every day this increased demand is being met with greater production!

Think of it! Every other second, another ALLSTATE takes the road.

Leading in Popularity

What a Cab Driver Thinks of ALLSTATES

Dear Sir:
Just a few lines to let you know what I think of your ALLSTATE Tires. I have been a Cab Driver for four years and have never had such wonderful wear from any tire before as I have received from ALLSTATES. My car is out on the streets 15 to 18 hours daily, up and down all kinds of streets, many of which proved very hard on other kinds of tires I have used, but do not bother ALLSTATES. This is my first experience with ALLSTATES and I will always use them as long as I drive a car.
Sincerely,
L. J. ROY

Naturally, this demand has placed ALLSTATES far ahead in popularity. Tire users everywhere began talking ALLSTATES. One enthusiast told another. And so it became in two years the most popular tire sold direct to the user.

You don't have to take our word for this. Look around in your town. Count the ALLSTATES. And while you are counting them look at their massive tread. Look at the long mileage written all over the tires. Then ask the man who uses them what he thinks of them, and your next tires will be ALLSTATES.

"more than 32,109 Miles proved to me that you didn't claim enough"

Read Mr. Beard's Own Story

Good tires with safe treads like SUPER ALLSTATES *add a certain measure of comfort to motoring. The safety of his family meant everything to Mr. Beard, for he tells us, "At all times I had the utmost confidence in my* SUPER ALLSTATES *and felt secure in their ability to carry us through safely under all conditions."*

The kind of service that a tire gives you is, after all, the genuine story of quality. In this letter below which we are printing with Mr. Beard's permission, he tells you better than we ever could of the real service these wonderful tires are giving. We need talk no further. This letter tells the story.

I BELIEVE I can safely say that one of the most fortunate purchases I ever made was when I bought SUPER ALLSTATES for my car. I had been planning a long Western trip and naturally wanted a tire that I felt would stand the wear and abuse that such a trip would mean. Especially since I had planned to take my family of five and a complete camping outfit. Many friends of mine had told me of the wonderful mileage and service they had gotten out of ALLSTATE tires. So I naturally turned to Sears, Roebuck and Co. and after looking the tires over decided that they were the ones that would give me the best results with my heavy car and the long trip I had planned.

If tires were ever put through a more severe test, I cannot imagine how. I bought them in Chicago and left for the West. I did not return to the East for several months and after a month's visit in Michigan returned over the same route to my home city, Oakland, California. During that time my six SUPER ALLSTATES averaged about 30,500 miles. An accurately kept record of each tire showed me that two of them had traveled 32,109 miles. Three of them came back with the original air in them. I have been driving a car for a number of years and drive a great deal. Exceptional tire quality is, therefore, something that makes a hit with me. I can truthfully say that I don't believe there is another tire on the market that would have given me the service that SUPER ALLSTATES have.

When I look back and recall some of the roads that we have been over, I realize just how much real dollar for dollar tire value I have gotten out of them.

One of the worst roads, and there were many almost as bad, was a 67-mile stretch into the Grand Canyon. I can't imagine a worse road—stones and rocks with edges of razor blade sharpness—like chipped edges of broken concrete. Deep holes that let the full weight of the car and its ton and a half load bang down on these sharp stones. A road that was so rough that it seemed as if the car would shake itself to pieces. 67 miles going in and 67 miles coming out. Many cars were passed with apparently new tires blown out and cut to shreds, but SUPER ALLSTATES carried us through without one minute's worry, and seemed none the worse for it.

I have surely had more than my money's worth out of SUPER ALLSTATES, and when they wear out, if they ever do, for they are still in wonderfully good shape, you can just bet your life that I am going to get another set. I am permanently wedded to SUPER ALLSTATES as long as I drive an automobile, which I hope is for some years to come.

Sincerely yours,

W. H. Beard. Jr.

Mr. Beard has given us full permission to print the above letter. His address will be gladly sent to you upon request.

Cost No More Than STANDARD

In addition to the unusually heavy car that Mr. Beard drives, the SUPER ALLSTATES that he used carried over a ton and a half of passengers and baggage.

Tires *of Nationally Advertised Brands*

If you want a tire that will give Super Service, built only of the finest materials, built better than the average driver would demand, you want SUPER ALLSTATES. *They represent the ultimate in tire construction and have proved to millions that they outlast other tires selling at much higher prices. Only Sears, Roebuck and Co. could possibly offer tires of such quality at these low prices. And remember, in comparing prices that we pay the postage.*

If we could cut one of these massive tires in half so you could see how the fabric is built up with cushions of live rubber between the plies, if you could feel the thickness of the tread; if you could examine a SUPER ALLSTATE as carefully as this you would then realize why they traveled the 32,109 hard miles Mr. Beard tells about and still came through looking good.

ALLSTATE
Heavy Duty Truck and Bus Cords

12,000-Mile GUARANTEE

When you buy a tire for your truck or bus you look for mileage, freedom from ordinary tire troubles and low cost per mile.

ALLSTATE Truck and Bus Cords offer you these qualities in a greater measure than any other truck tire you can buy.

For mileage, we offer you a guarantee of 12,000 miles, which mileage has been exceeded in cases beyond number as our many unsolicited testimonials prove.

The fact that thousands of trucks hauling milk, livestock and perishable products into the busy markets of Chicago, New York, Philadelphia, Kansas City, etc., are equipped with ALLSTATE Truck tires is conclusive evidence that freedom from expensive delays is an outstanding characteristic of these tires.

You save money when you buy, but the greater economy comes as they run mile after mile over the average mileage of other truck tires.

Many large firms who check costs to the fraction of a cent, have equipped their fleets of trucks and buses with ALLSTATE Truck and Bus Cords. Buy them now. Your saving starts at once.

We pay the postage.

GUARANTEE

These Famous ALLSTATE Truck and Bus Cords are guaranteed against any defects in workmanship or material on a mileage basis of

12,000 Miles

Many users tell us that these tires run for 20,000 to 25,000 miles.

Real At Last! A 100% Satisfactory Puncture Resisting Inner Tube

The pressure of springy, resilient rubber in the HERCULES Tube squeezes shut a puncture just as a giant hand might squeeze shut a hose. And the puncture is closed permanently!

HERCULES

"All That the Name Implies"

WE PAY the POSTAGE

After years of laborious research in building an inner tube to resist nails, barbs and thorns, after years of trial and experiment, finally, success! We found a better way to make a puncture resisting inner tube, without fillers, liquids or armor plates! The HERCULES is a better tube, composed of the best rubber, cleverly constructed, taking advantage of the natural springiness and compactness of rubber under tension.

While others may be content with putting an untried, unproved puncture resisting tube on the market, we have spared no money, time, nor engineering ability in testing the HERCULES. For months we tried and tested it thoroughly under actual road conditions before offering it to you.

The HERCULES Is a Real Puncture Resisting Tube!

It's the way it's built, with bow shape inner cushion of tough, three-layer rubber, black next the tube, then a thick layer of uncured, highly elastic rubber, and an inner sheath of black rubber. Try to puncture it!

Inflated, the HERCULES Tube is at such tension that even though a nail may penetrate the three layers (no ordinary nail can), as soon as the nail is withdrawn the rubber squeezes shut and there is no puncture! Just as a hand squeezes and shuts off a hose, so does the rubber in this Giant HERCULES Tube close a hole—permanently!

In the diagram at the right, see how the ordinary tension of the bow shape section flattens the tube. This tension is increased many, many times when the tube is inflated. In the lower diagram, arrows show the direction of the pressure. See for yourself how the rubber squeezes shut to close any puncture.

The HERCULES is not a freak tube. It is just a better made tube, the only satisfactory one of its kind. It contains no filler or compounds to leak out and soil the hands or clothing. The HERCULES is all rubber, thorn and nail resisting, a real puncture resisting tube that will free millions of motorists from the worry and trouble of punctures!

HERCULES Puncture Resisting Tubes will increase your tire mileage—get the last mile of wear from your cords or balloons, wear any tire deep into the cords before you need to discard it. They will outwear tire after tire!

Consider the saving in repairs and time and trouble over the ordinary inner tube and realize how low priced is the HERCULES! Your saving on the cost of one puncture more than makes up the difference. Yet the HERCULES Puncture Resisting Tube costs but a third to a half the price of other so called puncture-proof-tubes sold elsewhere! There is no other tube on the market today with the puncture resisting qualities of the HERCULES! **Order Now!** The sooner you have it the sooner your tire troubles are over!

Note the tension in the bow shape cushion, sufficient to hold the tube flat. See the three thicknesses of tough, springy rubber! Here's ample proof against puncture!

Imagine how the pressure increases through every atom of the rubber cushion when the tube is inflated! Arrows show direction of pressure the rubber exerts against a nail driven into tube. When nail is pulled out, rubber squeezes in to close puncture permanently!

ALLSTATE Perfect Circle INNER TUBES

The Best "All Round" Tube for Balloon Tires!

Record service, as well as rigid tests, have proved that these form fitting, absolutely circular, non-pinching tubes are the best tubes for balloon tires. Because of the perfect distribution of rubber in the manufacture of these tubes, unequal strain and the possibility of pinching are minimized. The rubber is never stretched thin over the crown of these tubes, which helps to eliminate the possibility of punctures, and *they hold air* unusually well. You users of low pressure tires can be *sure* of maximum service from your tires and tubes, if you put in ALLSTATE "Perfect Circle" Tubes. We pay the postage.

Oversize Tires Give More Mileage

Oversize tires give greater riding comfort, save the car from the rack and hard wear of rough roads and, in addition, give you the lowest tire cost per mile. Nearly all the new up to date cars are now using oversize tires, as makers have learned the many advantages of oversize tires. **We Recommend Them.**

Longer Life Brake Lining Because

1. We use only the finest long fiber Canadian asbestos, the finest brass wire and the best grade long staple cotton.
2. Our method of reinforcing—spinning two strands of brass wire with three strands of long staple asbestos fiber—produces a fabric that will not break down.
3. A cross woven stitch locks together the built-up three layers of fabric, giving fully 25 per cent more wear than any other brake lining we have tested.
4. Our woven brake lining is impregnated with a compound forced into the length and breadth of each fiber under a vacuum.
5. The treated lining is drawn through calender rolls under 6,000 pounds pressure, shaping each square inch of lining to uniform thickness

We Have the Answer to This Question

How good are your brakes? Just as good as their lining! Then consider carefully before you trust your car, yourself, your family, your children and friends to brakes with untried inferior brake linings. It is so easy to **be sure** before you buy. Our brake linings are made to the most rigid specifications, of selected materials. Our factory methods are up to the minute and are the result of exhaustive research to discover the best way of making a wearproof, gripping and non-burning brake lining.

Wears Longer, Costs Less

We spare no expense to produce for you this superior lining, oil and water resisting, tough and strong, and uniform in thickness through every inch. There is real economy in buying our tested brake linings of proved reliability. You save five ways: In lower cost, longer service, in time, trouble AND SAFETY.

Woven Brake Lining

Has the form, compactness and body for drilling and countersinking of rivets. Tough and strong as brake lining can be made.

Folded and Stitched Brake Lining

Vulcanized into a solid strip under hydraulic pressure. Will not swell, nor pull apart in use. Suitable for use in all cars.

Heavy Duty Brake Lining

Made to give exceptional service—at least 25 per cent more than other heavy duty linings we have tested! Made of finest long staple Canadian asbestos, specially treated to defy oil, grease and water. Retains its gripping power until it is worn wafer thin! Here is a lining that will give you almost indefinite service on passenger cars. Highly recommended for trucks and busses. Be sure of safety—of greater savings—with Sears Brake Linings!

PEERLESS HEAVY DUTY TRUCK BATTERIES

Truck Owners!

Day in and day out, a Peerless delivers dependable service! Frequent stops that mean using your starter, night driving which calls for good lights, test these sturdy Peerless truck batteries to their limit. There is excess strength built into each part of these sturdy batteries, a ruggedness that means years of faithful service.

The First Cost Is Less We Guarantee Them!

Your truck was built for harder service than a passenger car. Give it a battery designed and built to meet its special needs! The Peerless is built of selected, new, finest quality material, with sturdy, one-piece box, waterproof and acidproof, designed to resist vibration and stand up under hard service. Heavy plates with greater area store up energy and supply a steady rush of power to the starter. It is only because of the thousands of batteries we sell at our low cost of distribution that we can quote these sturdy truck batteries for less than others ask for cheap undersize batteries. The quality built into the Peerless makes it possible for us to give our liberal 2-year guarantee. Peerless batteries are guaranteed for 2 years on a service basis. On this basis we will repair the battery or replace it, charging only for the service you have received.

RELIANCE RADIATORS for New Model "A" Ford

Built for replacement in the new model "A" Ford, these are of the same high grade construction as Reliance Radiator for 1917-27 Fords. You will realize even greater savings in buying such a radiator, built to the very highest standards and embodying the latest features and at such a low price! Both cellular and tubular styles, without shell. Shipping weight, 38 pounds. Not mailable. Shipped by freight or express only. **Not prepaid.**

28R15705½—Tubular Radiator.....**$11.95**

28R15200¼—Cellular Radiator.....**11.25**

NOW, Mr. Motorist, here is further protection for your car! Greater saving for you! An improved method of radiator core construction which permits greater cooling surface in the same area as in the ordinary type, both in the cellular and tubular style radiators. It's the greatest improvement in radiators since the cellular and tubular styles were first introduced!

Here Are the Facts

1—Fins, by special forming process, have one-third more exposed radiating surface within the same area than ordinary flat fins. The core is 1½ inches deep instead of 1⅛ inches as formerly.

2—Fins telescopically interlocked, forming a self aligning, self supporting structure, entirely relieving tubes of all weight, stress and strain.

3—Tubes set staggered in two rows, 45 instead of 42 as formerly, and offering greater and freer flow of air through fins.

4—All tubes, flat, lock seamed to stand 1,100 pounds pressure, made of copper and thoroughly tinned, alkali-resisting and guaranteed against damage from freezing.

The Challenge

CELLULAR RADIATOR for Model "T" Fords

There's more economy in buying a new radiator at our low price than in patching up the one that's worn out! At the price we ask, you cannot afford to run the risks of overheated engines, burned out bearings, and the many other results of a leaky radiator. When you buy this radiator, you buy good insurance against being stalled on the road some zero day. The Challenge meets the demand for a good, low priced radiator. Of standard construction, with cores and tanks of brass, and many of the new features and improvements that have made our Reliance the most efficient cooling device on the market. Accept the added challenge of remarkable quality for such extraordinary saving! Guaranteed for 18 months against damage from freezing.

New Savings!

Against DAMAGE FROM FREEZING

THESE new features now are added to the long established quality and name of Reliance, Premier and Challenge Radiators for Fords, and Radiators for Standard Cars. Nowhere else can you find such high grade radiators at our low prices. Read our great guarantee! We guarantee all cores used in our radiators for a period of 18 months against damage due to freezing.

4 Points of Superiority

1—New core contains 64 water channels as compared with 56 in former construction, offering the greatest direct cooling surface.

2—Cellular radiator core is made of brass or bronze according to the model; no fake or alternate fins; no cloggings.

3—Water channels straight up and down, assuring rapid water circulation and non-plugging.

4—Core is flexible, dipped in virgin high grade solder. Can be bent without breaking.

The Premier
Heavy Duty Cellular Radiator

For 1917-27 Fords

Look at the difference! See for yourself the added cooling area, great radiator surface, of the Premier heavy duty cellular type radiator. It is 2 inches deep as compared with the highest grade Reliance cellular, 1½ inches deep. And the core is of highest quality live bronze. Built for heaviest duty, recommended for passenger cars when extra high quality is desired for meeting extra heavy loads, high altitudes or exceptionally bad roads in hot climates. For laundry, coal and gravel trucks. Guaranteed for 18 months against damage from freezing.

The Famous MUNCIE

150% Greater POWER for

For the Return

Install an Auxiliary Transmission NOW and "cash in" on the 150 per ce added power and 30 per cent more speed it'll provide. That increased p and power will haul heavier loads up hill and down on any kind of ro where there's traction to be had, and in any kind of weather, and do easier, quicker and better. You can speed back to the job with your emp truck 30 per cent faster than before, too. Make more trips every day for it's those EXTRA TRIPS that soon help pay for the transmission and p extra money in your pockets as well

More Power for Heavy Loads

Driving your truck or car up a hill or through mud, sand or a wet, soggy field is just like adding the extra weight of a heavily loaded trailer. The motor does its best—struggles and puffs and pounds—exerting every ounce of energy to make the grade. Many times it does. But what a difference after an Auxiliary Transmission has been installed! It supplies 100 to 150 per cent reserve power that's ready for instant use when it's rough going.

EASY MONTHLY TERMS!

Let your transmission pay for itself! Send only $10.00 with your order and the remainder pay at the rate of $10.00 each month. The cost is only slightly higher, and you have the use of added power and speed while you pay!

More Power, Speed and Profits!

10 Speeds Forward
6 Speeds Reverse

A big money maker for farmers, contractors and transfer and bus companies. With the extra speed, **30 per cent more**, and power, **100 to 150 per cent more**, that the Muncie Master Auxiliary Transmission supplies, you can make extra trips and extra money. One or two additional truckloads a day will quickly help pay for the transmission. You don't have to be afraid to tackle those heavy jobs that take you over bad roads, up hills and through soft fields. When you've emptied your load and want to hurry back to the job—just shift the auxiliary lever into high, and speed along 30 per cent faster than before.

The Muncie Master will actually save you gas, oil and repair bills, for though you have more power and speed, yet your motor does not revolve as rapidly in overdrive. It in no way affects the operation of your regular shift or transmission. Sturdy, strong and well built to stand hard service. Constructed to put the extra weight where it belongs—on the frame—providing 3-point suspension. Gears and shafts are 5 per cent nickeled steel with annular ball bearings on the main shaft and countershaft. There's still another use for the Muncie Master Transmission. Operate it with the Power Take-Off unit listed at left for sawing wood, silo filling, feed grinding, winches, hoists, etc. NOT PREPAID.

Trojan Auxiliary Transmission for Model AA FORD TRUCKS and Model T Passenger Cars

For Model T Fords

1—Provides 4 speeds forward and 2 in reverse.
2—Gears constantly in mesh—impossible to be caught in neutral position.
3—Saves wear on transmission bands.
4—Installed on rear axle without cutting or changing drive shaft.

Brings your Ford passenger car right up to date. Provides 50 per cent **more power** in high and 83 per cent **more speed** than you ordinarily had in low; also adds 50 per cent more power in reverse. Saves wear on transmission bands. Should you desire greater speed than may be had in Ford high, we suggest you install a 28R8542, 3-to-1 Ring Gear and Pinion as described on page 374 of this catalog.

Your usual driving method is unchanged, just one movement of the gear shift lever of the Trojan increases the power of each Ford speed. Easily mounted on the rear axle, and does not increase the angle of the universal joint nor impose any additional weight at that point or on the drive shaft. **All parts guaranteed. Shipped from factory in SOUTHERN INDIANA.** Shpg. wt., 67 lbs. Not prepaid.

28R9951½—Cash price..... **$29.95**
Easy payment price..... **$32.95**

For All Model AA Ford Trucks

1—Provides 6 speeds forward and 2 in reverse.
2—Furnishes 100 per cent power increase.
3—Three planet gears to reduce strain on gear teeth.
4—Shifts smoothly and quickly.
5—Easy to install back of regular transmission.

Wouldn't you be interested in getting 100 per cent more power from your truck if you could buy it for only $39.95? That's what this Trojan Auxiliary Transmission will do—**supplies 6 speeds forward and 2 in reverse.** Three planet gears reduce the strain and load on each gear tooth one-third. When not in use it revolves smoothly with the shaft as a single unit.

It's easy to install just back of your regular transmission by employing a shortened shaft assembly, which we furnish at no extra charge. Strongly constructed of high grade materials with gears and wearing parts cut from scientifically heat treated metal. **All parts guaranteed. Shipped from factory in SOUTHERN INDIANA.** Shpg. wt., 55 lbs. **Not prepaid.**

28R9963½—Auxiliary Transmission for Model AA Ford Truck. Cash price **$39.95**
Easy payment price..... **$43.95**

Handy Power Take-Off

Costs very little and is easy to apply to the auxiliary transmission. Use it for sawing wood, churning, feed grinding, hoisting, etc.

Auxiliary Transmissions

THE HEAVY LOADS

Trips With an Empty Truck 30% Greater Speed

You'll be amazed at the running "feel" of your truck or car when the Auxiliary Transmission has been installed—smooth, easy and with practically no vibration, even when going 35 to 45 miles an hour. Climb steep hills in second speed and have a cool, slow running motor. It will in no way interfere with the regular transmission on your car. You'll save gas, oil and repair bills due to the increased gear ratio which decreases the engine revolutions. And a further saving is in our extremely low prices. You can buy an auxiliary transmission from the World's Largest Store for $35.00 to $60.00 less than elsewhere.

for MODEL U CHEVROLET Trucks

Make Your Truck Work Overtime for You

Install a Muncie Auxiliary Sliding Gear Transmission, and see how much more work you can do with your Chevrolet truck. Let those powerful gears put added strength and speed into the truck and make it earn more money.

With a total of 9 speeds forward and 3 in reverse, working in tandem with the regular transmission, you'll have almost unlimited power and speed under perfect control. It's easy to operate, too. The shift lever is conveniently placed close to the seat ready for instant use. It only takes about 8 hours to install. Bolts on behind the regular Chevrolet transmission after the torque tube (shaft housing) has been cut off in accordance with our easily understood instructions. An extra shortened drive shaft is included, as well as all the parts needed for making a first class job. All gears are extra hard, cut from 5 per cent nickel steel. **See opposite page for prices.**

More Speed for Empty Trucks

Down the hill it goes—the truck's empty. How much faster you can travel when the load is light. That's the way you can go when you install an Auxiliary Transmission. You don't have to wait for a down grade. You've 30 per cent more speed right at the tips of your fingers. Just shift the lever into high and away you go back to the job again—30 per cent faster than you could before you had the transmission.

EASY MONTHLY TERMS!

Let your transmission pay for itself! Send only $10.00 with your order, pay the remainder at the rate of $10.00 each month. The added cost is only slightly higher and you have the use of added power and speed while you pay!

MUNCIE for MODEL T FORD Passenger Cars and T T TRUCKS

New Performance Record for Model T Cars and Muncie Junior for TT Trucks

Gives 7 Speeds Forward and 5 in Reverse

Put extra life and vigor into your Model T Ford car or TT truck! The Muncie makes it operate like a Model A. You'll enjoy the smooth action and the increased power and speed it will give you. Even though this transmission supplies **added power**, the motor will **use less gas** because you have a gear ratio lower than the standard low and an overdrive feature for greater speed, both of which reduce the number of revolutions of the engine. We recommend it particularly for use with trucks hauling less than 2 tons. If you want more power, we suggest installing a Muncie Master, shown at the top of opposite page.

It's so easy to operate, too. Just pull the smoothly sliding lever for the proper gear to give you the kind of speed or power you require for any road or load. Bolted on directly back of the Ford transmission, it in no way affects the action. When properly mounted, it maintains the necessary 3-point suspension. **We supply a shortened drive shaft or a frame extension, whichever type you desire, at no extra cost.** If you lengthen the frame, the regular drive shaft is used.

The Muncie is sturdy and strong, and made to last. Gears and shafts are of best 5 per cent nickel steel, case-hardened and burnished. The main shaft is mounted in annular ball bearings with the counter shaft in high speed phosphorous bronze. **Not prepaid.**

Easy to Install

Muncie types are mounted directly back of the regular transmission. This requires either a shortened drive shaft or a frame extension. In the latter case, you use your own drive shaft. You have but to specify your choice and we will send the one you wish at no additional cost to you. Many prefer the extension as it allows them to use a longer body and gives a better balance when hauling heavy loads.

Transmissions can be shipped by freight or express only. Not prepaid.

Every Pontiac or Chevrolet Owner Should Have One!

Drive 45 Miles an Hour at 35-Mile Motor Speed With Less Gasoline!

Pull out and away from traffic jams on the highway. You can do it, too, if you install a Johnson Overdrive 4th Gear Transmission. If you own either a Chevrolet or Pontiac you'll find it a really worth while investment. You've experienced the sensation, no doubt, of "holding up the parade." You'd have given a lot for more speed to keep up with the rest of the more rapidly moving cars and to have the assurance of being able to pass up the "slow-pokes" if you wanted to.

Now with a Johnson Overdrive you can travel 45 to 50 miles an hour, comfortably and without the terrific strain and vibration of the high speed motor. Here, at last, is motoring satisfaction at a trifling cost, and without interfering in any way with the sound mechanism of your car.

It will effect a real saving in the upkeep of your car. It has been estimated that the Overdrive will reduce gasoline consumption from 15 to 20 per cent. And with the reduction in the speed of the motor 25 to 30 per cent, it will not consume as much oil. You will also save on repair bills and **add many thousands of miles to the life of your car!**

When driving, it's a simple matter to shift from overspeed to direct and back again. You don't have to shift the auxiliary in starting or stopping either. Most drivers use the regular transmission for traffic driving, and change to the auxiliary when on the open highway where they can go faster. It is built into the power line behind the regular gear assembly, and is operated by a separate shift lever which extends through the floor near the seat, always within easy reach. The Johnson Overdrive is simple to install and with our easily understood directions, requires but about four to eight hours. We supply the shortened drive shaft to replace your regular one.

ALLSTATE CUSHION PAD

PREVENTS PUNCTURES

This new cushion pad will add thousands of miles to the life of your tires. It protects tires against punctures caused by nails, tacks and other sharp objects. The extra pad of resilient rubber inside of your tire helps to cushion it on the rough roads, and your tube is insulated against heat caused by friction.

The ALLSTATE cushion pad is easy to apply. It is made of tough resilient rubber reinforced by fabric and shapes itself perfectly to the inside of your casing. **It positively will not injure your inner tube.** The World's Largest Store thinks so well of this new cushion pad that we have given it the name of ALLSTATE, the same as America's greatest tires. Furnished for cord and balloon tires in the sizes listed below:

Boost Tire Mileage With These Inner Casings

$1.75 And Up

Don't throw away a tire when the tread wears thin. An Inner Casing will help you get considerable more mileage from the tire. By using Inner Casings you also avoid the average puncture due to small nails or tacks, the extra thickness inside the casing helping to keep these objects away from the inner tube. Inner Casings are built up of several layers of fabric and an outside layer of rubber. They are shaped to fit the tire. They are practically an endless reliner but of heavier construction and with the sides extending well down past the beads to cover nearly the entire tube. **We pay the postage on all Inner Casings listed below.**

Low Priced Tire Flap

33c

Keep inner tubes from pinching or chafing against rough, rusty rim, etc. Replace worn flaps before they injure tube or casing. Made of several fabric plies, with beveled edges. **We pay the postage.**

28R9426—For all sizes of cord or balloon tires **33c**

Rim Paint Saves Tubes

Applied in a New and Better Way

Perhaps you have been using rim flaps to protect your tubes from rust, and have found them effective. But have you realized that the premature wear of the clincher bead of your tire was caused by the small extra thickness of these same flaps crowding the snugly fitted bead out of the accurately formed clincher rim? Automotive experts, after rigid tests, have abandoned the flap for Auto Rim Paint, easily applied and quickly dried. Paint is acknowledged the best rust resister; its thin film occupies no extra space to crowd or wear your tire. Buy it and try it. You will never use rim flaps again. **We pay the postage.**

28R10913 ..... **40c**

Puncture Proof Reliner

$2.78 And Up

These Puncture Proof Reliners are made of heavy, tough resilient rubber with two layers of overlapping brass plates. These metal plates, imbedded in heavy rubber, offer greater resistance and often turn back nails, tacks and other sharp objects which penetrate to the plate. Reliner is built with long tapered ends and feather edge tapered sides, protecting tube from being pinched and fitting tire snugly. We recommend the use of these reliners only in worn casings, **not in new** casings, or in casings which have a hole through both rubber and fabric. These reliners will not stand contact with the road. **We pay the postage.**

Turning handle steadily in one direction gives the reciprocating or forward and backward movement needed for satisfactory valve grinding. Insures even grinding, alternating a full turn in one direction with a three-quarter turn in the opposite direction. Complete with long extension shank, screwdriver bit and three driving points fitting valves on Fords and most standard cars. Has ball bearing action, insuring easy operation. As illustrated, with 1 can Grinding Compound. A splendid value at our price. We pay postage.

Efficient Service Station Battery Charger

Easy Monthly Terms: Install this great charger—$10.00 with your order brings it to you—and let it earn for you while you pay the balance in easy payments, only $10.00 a month!

You can quickly save the price of this charger in a few weeks—it pays for itself while you pay for it on our new easy terms! Use it for charging both auto and radio batteries. It will increase your profits and bring new customers into your shop. It is tapped with an auto transformer, designed to give you the greatest efficiency at all times, whether the load is light or full. It is not to be compared with similar outfits known as "variable resistance type," which consume the same amount of current for light loads as for the heavy ones. It will charge from one to twelve storage batteries in a series at a 6-ampere rate. The charging rate is visible at all times on the ammeter indicator. The rate of charging is easily and quickly regulated by turning the regulator marked "Raise and Lower." Charging leads and "on-off" switch are also part of the equipment. Uses a genuine 6-ampere Tungar bulb, which is included. Mounted in a black steel case, size, 14x10½x12 inches, perforated for ventilation. For any 110-volt, 60-cycle alternating current system. A BIG SAVING ON YOUR IGNITION SYSTEM

IGNITION SYSTEMS HORNS COILS TIMERS

Automatically Timed Ignition System for Fords Up to and Including 1927 Models

Eliminate poor ignition by controlling timing of cylinder explosions much more closely than usual. Sells elsewhere for much more than our low price. Distributor head rests on elevated brack-et, away from oil, water and dirt of drip pan or contact with fan belt. Operates with single Ford coil unit, the regular timer and other coil units not being used. Its use means a hotter spark and a smooth, powerful easy running motor, giving easier starting, quicker acceleration and greater power. Complete with bakelite distributor case, elevated bracket, distributor shaft, hardened steel spiral gears and overhead wiring, enclosed in supporting tube for battery or magneto type. Instructions furnished for installing. We pay the postage.

NEW! VAPORIZER and CARBURETOR COMBINED

Vaporizer for Ford Cars

The latest mechanical development in combined vaporizer and carburetor for your Ford! Now you can be sure of perfect motor operation, in hot or cold weather, by this new method of controlling the amount of vaporizing surface used. Note these advantages: Motor starts easily, warms quickly to correct temperature; makes a low test gasoline operate like high test and gives smooth operation at all speeds. Efficient, easy to install and absolutely guaranteed. For Fords up to and including 1927.

Hot Tube Vaporizer FOR FORDS

$5.15

Saves Gas; Gives Super Power for Fords Up to and Including 1927 Models

By an ingenious system of baffles or deflectors the gasoline and air mixture from the carburetor is dashed and swirled against the hot manifold sides and each drop broken and converted into a dry powder producing explosive unit. The long highly heated channels further vaporize it so that the gas is exploded completely in the cylinders. Eliminates crankcase dilution and spark troubles, and insures even, regular and full power explosions. More than worth the money. We pay the postage.

Safety and Beauty

Bumpers Chromium Plated—No Tarnish—No Rust!

Avoid accidents with the proper bumpers on your car! You can swerve out of danger—often risk a bump, confident that your car will be protected. Good bumpers save countless lives, save dollars in damage to automobiles. Dependable bumpers are worth their cost to you. But the prices on the bumpers we list, which rank with the best in construction, efficiency and long life, are far below what you are ordinarily asked to pay elsewhere for bumpers of as high quality.

All Chromium Plated Spring Steel

Your bumpers are for looks as well as for protection! Ours are Chromium plated—won't rust or tarnish! Just polish them with a damp cloth. They are of the latest popular type, of high grade, oil tempered, heat treated carbon spring steel, in the new convex style bar which is being used as standard equipment on the very finest, high priced cars. Their great strength, two parallel convex bar construction, and wide spread insure greater protection to car and occupants in case of a collision. Clamps fitted with turnover tips; special bridge block holds bumper bars absolutely tight and prevents shifting or rattling. Strong flat brackets of 2⅜-inch spring steel, readily attached.

The Szekely SR-3 Airplane Motor

A Safe, High Grade Engine for a Small Plane

$695.00

Are you building a plane or do you wish a safer, sturdier motor for the one you now have? Or perhaps you are experimenting with propeller driven ice sleds or boats. The SR-3 will perform well at low cost. The SR-3 is designed especially for single or two-place planes, with a 25 to 30-foot wing spread, weighing between 475 and 525 lbs. In such a plane this motor turns a 40-horse-power propeller at 1,725 R.P.M. on the ground and more than 1,850 in the air, giving an ideal cruising speed of from 80 to 85 miles per hour. The SR-3 is an economical engine, using about .58 lb. fuel per h.-p. hour; oil consumption guaranteed not to exceed .029 lb. per h.-p. hour. Cylinders, close grain, chrome-nickel iron with thin fins for efficient cooling. Head cast in one piece with cylinder, to eliminate gasket troubles. Crankshaft, single piece drop forged. Connecting rods, alloy steel, drop forged, heat treated and machined all over to secure perfect balance. Crank case, aluminum alloy. Passes requirements of U. S. Bureau of Standards.

BICYCLE WHEELS—MUD GUARDS AND SUNDRIES

New Speed and Mileage for Your Bike

Genuine Hand Trued Bicycle Wheels

BICYCLE REPLACEMENT WHEELS

For enameled rims add 22 cents. See "Bicycle Rims" at left.

Cement on type wheels have a coat of hard cement. Moisten with gasoline before putting tire on. All wheels have spindle hubs. Sprockets for rear wheels come 9-tooth for 1x3/16-inch chains (7, 8 and 10-tooth also furnished). Hubs come with 18-tooth sprocket for ½-inch chains (14, 16 or 20-tooth also furnished). **In ordering state number of sprocket teeth.** Always order wheels by tire size, not rim size. Adults' bicycles (20, 22 and 24-inch frames, also motorbikes), have 28-inch tires. Children's bicycles (16 and 18-inch frames) take 24 and 26-inch tires respectively. Wheels for children's bicycles come in natural wood finish. Elgin Bicycles for Boys and Girls have 26-inch tires.

TEST IT AGAINST ANY 75¢ BALL

FOR DISTANCE!
FOR ACCURACY!
FOR ability to take HARD KNOCKS!

Then ask yourself: Why should I pay 75c or more when the New Improved W L S "72" is a better ball and costs only

55¢ Each

$6.10 per Dozen

New Improved WLS "72"

Guillotine Test

Used by the best golf ball manufacturers to test the toughness of covers. The ball is placed in a small metal pocket at bottom. A large heavy blade is dropped from the top, cutting or denting. Some balls were cut through, others badly dented, but the New W L S "72" was only slightly marred and in no instance was the cover cut through. This force is equal to a person hitting a ball with an iron club, and the abuse it will receive. The W L S will withstand hard use and we will replace any ball cut through its cover during 72 holes of play.

Driving Test

Ten different, most popular 75c golf balls, including the New W L S "72" (1 dozen each) were used in this test. In this power machine the wood headed driver swings around in a complete circle, hitting each ball with equal force and shooting them far, far out across the field. In every trial the W L S proved to be far superior for distance—accuracy—roll. Actual test, therefore, showed conclusively that it is the best ball now on the market compared with any 75c ball.

Guaranteed *for* 72 Holes

Endorsed by World Famous Golfers

Quality Proved by Laboratory Tests

AGAINST CUTTING THROUGH THE COVER!

A great combination that! Our own generous guarantee backed up by the practical experience of professional golfers and quality determined by the unerring evidence of science.

Recently, on one of the most "sporty" golf courses in the country, two internationally famous golfers gave W L S "72" balls a workout under the most natural conditions possible. They were amazed and astonished that a ball which sold for only 55c could be so snappy, drive so far and roll so true! Their opinions were unanimous regarding distance, accuracy and toughness of the cover. They compared them stroke for stroke, with balls costing 75c and more. The real worth of W L S "72's" was apparent right from the very first shot off the tee.

And then science submitted *its* report. Specially constructed and delicately balanced machines at Armour Institute of Technology, Chicago, were employed in the test. The guillotine, described above, proved conclusively that our golf balls could stand harder punishment than any.

Another instrument recorded the driving test (read the story above), while still another tested them for putting accuracy. In every one of these trials the New Improved W L S "72" was far superior to any other 75c ball on the market.

The W L S "72" is a ball we know will stand up under the hardest use. Slice it, top it, hit it square on, that tough, resistant cover is a brute for hard knocks! Made for you fellows who shoot an average game. You've never known the fun and satisfaction in playing with a sturdy, dependable golf ball until you've tried a W L S "72." When you get down in one of those traps, and you shower yourself with sand, whack away at a W L S as hard as you want to, you can't cut the cover—it's guaranteed for 72 holes against cutting through the cover.

The great care and precision taken in their manufacture, backed up by specially constructed machines and skilled operators, insure this super-quality at all times. Mesh markings. We pay the postage.

Make a Motor Boat of Your Rowboat

Motorgo Sr.

New Outboard Motor—10 H.-P.
For Fresh or Salt Water
Strength—Power—Stamina—Speed

Remarkable strides have been made in outboard motor development in the past two years and to keep pace with this development we are offering this new class B motor (15 to 20 cubic inches displacement) A motor that meets the requirements of the fisherman and the resorter on the lake, stream or bay, recognizing that these requirements are more exacting than ever before. Without any effort on his part it takes him to his favorite fishing ground or swimming beach; to his friends across the bay or upstream; not only with assurance that the trip will be made without motor mishap but with an added pleasure that heretofore has only been possible with equipment that was a luxury or beyond the reach of the average man. We present it at this very low price, confident of your approval.

On actual brake test this motor develops over 10 horse-power which on boats in racing trim gives speed up to 33 miles per hour. On regular family rowboats, from 14 to 18 miles per hour is maintained with ease and comfort. The twin cylinders have a bore of 2½ inches and a stroke of 2 inches or 10.63 cubic inches displacement, two-cycle type, the cylinders being directly opposed.

Improved type carburetor assures high speed with maximum fuel economy. Bosch waterproof built-in flywheel magneto equipped with auxiliary air intake valve cleverly arranged to step up power and speed, and large exhaust manifolds to increase speed and silence in operation. Cavitation plate prevents churning of the propeller. Intake manifold and exhaust mufflers to silence intake and exhaust noises. Pump is removable for cleaning and screened to prevent foreign matter reaching carburetor.

Tiller handle is held positively in any desired position by means of a new friction sleeve. This is a very essential feature. Compactness and convenience predominate throughout the entire assembly and the total weight is only 65 pounds. Special two-blade propeller with 200 to 4,800 revolutions per minute, gives smooth, powerful, dependable performance at your chosen speed, with changes of pace or course at your instant command. Aluminum tank holds 2 gallons of gasoline. Not an experiment, for this motor has been given every possible test and achieved wonderful success under all possible conditions. It is built especially for us in large quantities by one of the largest and most reputable manufacturers of the country and has every feature of their regular Class B motor. Rope starter. Clamping levers are eyed to take a padlock thus protecting against unclamping. Attaches readily to rowboats or any square stern small boat. Shipping weight, 100 pounds. **Shipped by freight or express. Not prepaid.**

Outboard Motor 2¾ H.-P.

Now! Everyone can own an outboard motor. Away with exertion. Everybody fishes while this light weight twin (weighs but 42 lbs.) purrs across the lake skirting those weed beds where the "big ones" are lurking. Troll close to them or cast over among them unmindful of the power that is moving your craft. It will purr along at a speed of 8 or 9 miles an hour on an ordinary rowboat (faster with lighter boats or loads), and attaches quickly. Right at your command by a simple hand lever. Simple tilting device protects the motor in running over rocks, weed beds or other sunken objects. **Improved carburetor and Bosch high tension magneto. Water circulating pump is bronze and crankshaft and gears are chrome nickel steel, driving and propeller shafts being stainless steel. Weedless propeller of nickel bronze. Aluminum gas tank, capacity one gallon. Adaptable to fresh or salt water. Rope starter. Readily attached to ordinary rowboat or any square stern boat. Shipped freight or express. Not prepaid.** Shipping weight, 75 pounds.

In one year these boats have become the outstanding row boat values and at our low prices are unequaled. Another example of the wonderful values to be obtained from the World's Largest Store. Beautiful, graceful and easy rowing boats of the flat bottom or semi-round types. Painted in aluminum with mahogany stained wood gunwales and rowing seats. Sturdily constructed of guaranteed 20-gauge galvanized steel. Has channel steel ribs; bow is constructed of strong steel bar which protects boat in case of collision or when pulling up on rough shore. Rust resisting air chambers. The air chambers in the semi-round bottom boats are built separably, providing protection in case of collision, where an object would have to pierce two surfaces instead of one. The U. S. Government demands separable air chambers in their specifications. The width of stern of all boats is 28 inches; the depth at center of all boats is 15 inches. Seams hook jointed, soldered and riveted. All boats are equipped with one pair oar locks and one pair of copper tipped fir oars. 2R5736 and 2R5739 have wood seats over air chambers and wood grilled flooring, extra on flat bottom boats. All 14, 15 and 16-ft. boats have extra oar lock sockets at second rowing seat.

Wyandotte Lever Action Repeating Air Rifle and Tube of Shot Included—Will Shoot 1,000 Times Without Reloading

In our opinion there is nothing to equal this air rifle at twice the money, and our customers have shown their approval of our judgment by steadily increasing purchases every year. A repeating air rifle that will give any boy hours of fun, shooting small game or for target practice. Strong, powerful shooter and a shot is fed into the chamber automatically each time lever is pumped. It is very similar, both in appearance and action, to a regular rifle; has a blued steel barrel and walnut stock. The opening in the barrel for loading is gauged so as to prevent any oversize shot being used. One tube of shot included.

Big Selection of ALL WOOL Suitings

Generous Actual Samples of Many Famous Fabrics

You can dress better, look better and feel better in clothes made to your own measure. And if you order those clothes tailored at Sears you can save money even compared to most ready made clothes! Not only that, but **we guarantee your complete satisfaction, including perfect fit!** The proposition is worth investigating, isn't it?

Our new Made to Order Clothing Style Book is just off the press and ready to send to you. It contains dozens of actual cloth samples so that you may see and feel the excellence of these handsome **all wool fabrics.** It contains illustrations of many styles — conventional styles for the conservative man—peppy, up to the minute styles for the young man—trim styles for the stout man, besides styles for the tall and styles for the short. And it contains the easiest measuring instructions ever devised.

Many of the fabrics shown are nationally famous. All of them are absolutely **all wool** or all wool and silk. Yet our prices for a complete suit, made to your own individual measure, range from as low as $16.85 to only $39.50! And satisfaction guaranteed!

We please thousands every season. Let us please you, too. **Send for this book TODAY!**

More Than 12 Million Customers Say:

"So easy to order from Sears"

~and now we have made it much easier

ALL YOU have to do when you order from Sears, Roebuck and Co. is to pick out the things you want and write them down on the order blank, as shown on the sample order at the right. If you haven't an order blank, any plain paper will do. Use either pen or pencil, and write in any language.

Necessary Information on Orders

Give correct catalog number, quantity wanted, name of article and, wherever necessary, **state size and color.** Figure up the total cost of the articles ordered and enclose amount required. There is nothing more to pay, if your order can be shipped conveniently by parcel post, as **we pay the postage.** We have made buying by mail so simple that a child can order from Sears, Roebuck and Co.

How to Send Money

The best ways to send money are by Postoffice Money Order, Express Money Order, Bank Draft or Personal Check. If you send cash, be sure to have the letter registered. If you live on a rural route, you can give the carrier your order and money, and he will buy a money order for you. If in a special hurry, you may send your order and money by telegraph. The telegraph company will arrange this for you. **Give your complete address in the telegram.**

Time Payment Orders

You can buy much of our merchandise on liberal time payments. Terms of payment are fully explained in descriptions of articles offered on time payments. There is a time payment order blank in the back of this catalog for your convenience.

On all merchandise except that which can be bought on easy payments, our terms are cash in **full** with order.

Freight and Express Shipments

It is not necessary to include money with your order for freight or express charges if there is an agent at your station, as you can pay him when shipment is received. If there is no agent, send additional money to prepay the freight or express charges. Charges are the same either way. On freight and express shipments, we do not pay the charges.

HOW TO SEND MONEY. The safest ways to send money are by money order, express money order, bank draft or personal check. If impossible to obtain any of these, send currency enclosed in heavy paper by registered letter. If in a special hurry, your order and money may be sent by telegraph. The telegraph company will arrange this for you. Give your complete address in your telegram.

SHIPPING INFORMATION. For freight and express rates see the freight and express rate pages in this catalog or ask your Station Agent. If there is no freight agent at your station, you don't need to include money for freight charges. If there is an freight agent, it is necessary to send money to prepay freight charges. Charges are the same either way.

For Your Convenience

We Pay the POSTAGE

THE CATALOG PRICE IS ALL YOU PAY

On Any Merchandise That Can Be Shipped Conveniently by Parcel Post

WE NOW PAY the postage—for your convenience, for greater economy and better service. This is the greatest forward step in the history of the mail order business. It is unnecessary to figure parcel post charges when you order from Sears. Think of the convenience—and the saving, too. On parcel post shipments you pay only the price as printed in our catalog—nothing added. Remember this when comparing our prices with others. Sears are first in everything worth while. That's why we lead in savings and service. We aim to deserve that leadership always.

BEFORE we had established our ten big mail order stores; before we were within a short distance of ninety per cent of the population of the United States, it was not possible for us to prepay the postage. Now with the establishment of our great chain of stores and the tremendous increase in our sales, we are able to absorb a large part of the parcel post charges. In most cases you make an actual saving over what you formerly paid. In no case do you pay more. The saving is yours. Compare our delivered prices with the prices of others and remember—We Pay the Postage.

OUR PRICES ARE THE LOWEST IN AMERICA

We pay the postage on any merchandise in this catalog that can be shipped conveniently by parcel post—we cannot pay the postage on merchandise purchased from catalogs issued previous to this Spring and Summer 1929 Edition.

There are, however, a few articles in this catalog that are not postpaid. The descriptions state these exceptions, which may be due to conditions we cannot control. Some are due to the United States postoffice rulings; others occur on items that are usually ordered as a part of freight or express shipments. Your savings are just as great on these items as on those on which we pay the postage. On freight or express shipments, we do not pay the charges.

If Necessary to Return Goods We Can Give You Better Service If You Follow These Simple Instructions

We are always anxious to improve our merchandise and our service, so if you ever have occasion to return merchandise please tell us WHY you are returning the goods.

By Parcel Post

Paste an envelope containing your letter and the bills to the outside of the package and put a 2-cent stamp on the envelope in addition to the postage on the package. In this way we will receive your letter and package at the same time and can attend to your wishes promptly.

Do Not Enclose Your Letter Inside the Package, as This Is Contrary to Postal Laws

The illustration below shows you how a package should be wrapped and addressed when returning goods to us by Parcel Post.

Notice to Customers On Rural Routes

Should you wish to return goods and you live on a rural route you are entitled to deduct 2 cents from the postage on each package you mail if you live within the local, first, second or third zones and 1 cent on all other zones. It is necessary, however, to write on your package "Mailed on Rural Route" in order to make this saving.

By Express

Packages which cannot be returned by parcel post and which are not heavy enough to move by freight should be packed securely, addressed to us and shipped by express.

By Freight

Before returning goods shipped from a factory please write us. We ask this so we can tell you whether we want the goods sent to our store or back to the factory. If we have asked you to return merchandise by freight see that it is packed securely and addressed to us.

When returning merchandise by either express or freight, your full name and address should be placed on the inside or outside of the package. Place the word "FROM" in front of your name. Your agent will give you a receipt and this should be mailed to us at once with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned, be sure to tell us.

WHEN one speaks of service, it is the *actual* performance that counts—not the promise, not the clever phrase which when subjected to close examination says nothing and means nothing.

And when it comes to actual performance, Sears, Roebuck and Co. take second place to no concern in the country. Our service is better. Day in and day out, on order after order, we have consistently delivered the goods quicker to our customers than any one of our competitors.

Actual tests, independently conducted, prove that. It was true twenty years ago; it was true five years ago; it was true last year. It is true today—now!

Every improvement which shortened the time from the mailing of your order until the merchandise was delivered to you, had its inception within our organization. It was natural, therefore, that our system should be the pattern which others have followed. It will be natural for them in the future, to follow the improved system which we are using today.

If you are in a hurry—order from Sears!

This NEWEST *of* ALL SCIENCES

TOUCHES THE LIFE OF EVERY PERSON

TWO men studied the flight of a gull, and from their observation was born the aeroplane. Another, bolder than the rest, dreamed of voices in the air . . . today we enjoy radio.

* * *

Into this science—the science of development of the better things of life; things that make the home a better place to live; things that make our everyday tasks easier to accomplish; things that make our play hours more accessible to those of average means—into this science, Sears, Roebuck and Co. has projected itself with all the enthusiasm it can command, with all the resources at its disposal.

A washing machine that does the week's washing in an hour; a cream separator that turns with a touch of the hand; a golf ball that is good for 72 holes; an inner tube that is practically puncture-proof; a bicycle that can't rust.

These are only a few of the things we have done. The results of our scientific research in the past are spread over the pages of this catalog.

What will our next catalog bring forth? What are the things you are thinking about? What will you want?

Those are the things our Department of Research and Scientific Development is working on today. For we have realized that our dominance in the field of merchandising imposes upon us an obligation that only we can fill. We must not only offer for your approval that which is available through the ordinary channels, but we must make available to you, the things which you will want in the future.

WE ARE DEVELOPING TODAY YOUR WANTS *of* TOMORROW

In the days when laboratories were almost solely confined to institutions of learning, we established the first laboratory for the testing of merchandise. It was a courageous thing to do in those days. But because it was the right thing, because it took the guesswork out of buying and out of selling, others followed our example. We do not emblazon upon our pages the fact that we have a laboratory or a dozen of them, as we actually have. Here the laboratory is an accepted fact.

But we do say to you now that no other store in America is today fostering a Department of Research and Scientific Development. No other store, large or small, can extend to you the service which this department is performing.

It is of the new age. And it, more than any other single factor, portrays the force that is back of the World's Largest Store.

Whatever is new—whatever is right—whatever is helpful to our customers will have its beginning here.

Look to Sears, Roebuck and Co. for leadership—always.

Freight and Express Rates From Kansas City, Mo.

Below are tables showing the freight and express rates per 100 pounds on goods shipped from Kansas City to a number of towns in Arkansas, Colorado, Iowa, Kansas, Missouri, Nebraska, New Mexico, Oklahoma, Utah and Wyoming. The towns named are used as bases for figuring rates for other towns located in the same part of each state.

HOW TO FIGURE FREIGHT CHARGES. Please first consult the tables for the classification of merchandise on the opposite page, because the tables there tell you what class of freight each kind of merchandise takes. When you have found in what class the merchandise you are ordering is in, you can then find the rate for that class in the tables on this page. If your station is not named in this table, the rate will be the same for a few cents per 100 pounds more or less than the rate to the nearest city named. Most of our merchandise of course is shipped from Kansas City. Some of the heavier merchandise is shipped from warehouses to save freight for you. If you wish to obtain exact rates, you can ask your station agent.

HOW TO SAVE ON FREIGHT CHARGES. In having goods shipped by freight, it is best to make up an order of 100 pounds or more because railroad companies charge as much for a shipment weighing less than 100 pounds as they do for one weighing 100 pounds. The minimum charge is 50 cents.

We do not pay charges on freight or express shipments.

IF THERE IS NO FREIGHT AGENT at your shipping point, you must include with your order sufficient money in addition to the price of the merchandise to prepay the freight charges. If there is an agent there, you pay the freight charges when shipment reaches you. If you leave the method of shipment to us, we always choose the cheapest. ***We Guarantee Safe Delivery of All Our Shipments.***

Classification of Merchandise for Freight Shipments

You will notice in the rate table on the opposite page there are four different rates quoted to each city. This is because the railroads base their rates on the kind of merchandise to be carried. In order, therefore, to give you an idea as to the rates which any kind of merchandise will take to your nearest city, we tell you here the kind of merchandise which takes the different rates.

Explanation of terms or abbreviations used:

1 means 1st class.
2 means 2d class.
3 means 3d class.
4 means 4th class.
D1 means 2 times 1st class.
1¼ means 1¼ times 1st class.
1½ means 1½ times 1st class.
2½x1 means 2½ times 1st class.
3x1 means 3 times 1st class.
KD means knocked down.
SU means set up.

NOTE: When shipments are made K. D. (knocked down) the article is taken apart and packed to secure the lowest rates.

We do not pay charges on freight or express shipments. If there is no agent at your shipping point, be sure to send money to prepay charges. It is necessary to prepay only when there is no agent.

Scale of Express Charges Based on the Rate Per 100 Pounds

How to Figure Express Charges. Refer to the tables on the opposite page and obtain the rate by express for 100 pounds to the nearest town mentioned in your state. Then consult this scale and follow the line for the weight of your goods to the column headed by your express rate for 100 pounds, and the amount shown will be the express charges. If your town is not named in the table on the opposite page, the express charges to your nearest town in the table will be about the same.

IT'S EASY to MEASURE for CLOTHING

Our Clothing Is Carefully Made According to Correct Size Standards

You do not need to order larger sizes than we specify. Our descriptions tell you the size range and you can order with the assurance that, if your size is listed, we guarantee the garment will fit you. Our sizes are obtained by securing the average of thousands of men, women and children in each size, and we believe are the most accurate in the country.

Men's, Young Men's and Youths' Clothing

How to Take Measurements

Stand in your natural way, breathe regularly and do not expand chest; also take everything bulky out of your pockets.

Chest. Take measurement over vest. (A) Measure all around body at chest, close up under arms, snug but not tight. Tape measure should be over shoulder blades at the back.

Waist. If you wear a belt, take it off and take your measure over trousers all around body at waist. (B) Your waistline is just above hip bones. Feel sides for location of hip bones.

Inseam. This is to show length of leg. Stand straight and draw trousers well up in crotch. Measure from close up in crotch to bottom of trousers, to length desired. See line marked C-C.

Give These Measurements in Your Order

Suits. Give chest and waist measures and length of inseam; also height, weight and age.

Coats of All Kinds, Jackets, Raincoats and Overcoats. State chest measure taken over vest; also height, weight and age.

Vests. Give chest and waist sizes; also height, weight and age.

Trousers (Both Dress and Work) and Overalls. Give waist size and length of inseam; also height, weight and age.

Men's Underwear

Union Suits and Undershirts. Give chest size. Take off your vest. Measure all around body at chest over your shirt.

Underdrawers. Give waist size.

Men's Dress and Work Shirts and Night Shirts. State neck measure.

Women's, Misses' and Juniors' Coats, Dresses, Knickers, Blouses, Raincoats, Etc.

How to Take Measurements

Actual Bust Measurement (D). For any garment be sure to measure over very largest part of bust with dress or blouse on. Tapeline in back must run on shoulder blades and not below them.

Actual Waist Measurement (E). This measurement is very important when ordering knickers and skirts. Please do not allow extra. Give actual tape measurement, over dress or blouse.

Actual Lower Hip Measurement (G). This means very largest part of figure below waist. Do not "allow." We will make all necessary allowances. Measure over dress or skirt.

Length of Garment. For dresses, coats or raincoats, measure down back from neckline to hem, as shown in small diagram J to K. For skirts measure down front from waist, as shown F to H.

Height and Weight. Knowing your height we can use the very best judgment in sending you the proper dress, coat, suit or knickers. Give weight, also, to obtain best possible fit.

Tell Us This—Do you like to wear your garments loose fitting or close fitting? See space for answer on order blank.

You will be delighted to learn how easily and quickly you can be correctly fitted when above information is given to us. Our years of experience enable us to determine from these measurements exactly what size garment will fit you. **Always pull tape close but not tight. Do not allow. We will make all necessary allowances. Give each measurement as stated in description of garment you're ordering.**

How to Measure for Sweaters

A roomy sweater will give better service. Your proper sweater size is 2 inches larger than actual chest or bust measure.

Men's Sweaters: Take measurement around body at chest over vest, and order sweater 2 inches larger than your chest measure. For example, if your actual chest measure is 42 inches, order size 44.

For directions about ordering Boys' and Youths' Sweaters, see pages where they are described in this catalog. Refer to index.

Women's Sweaters: Measure all around body at bust over blouse or dress. Add 2 inches to your actual bust measure. For example, if your actual bust measure is 38 inches, order size 40 sweater.

For Children's and Misses' Sweaters: Give age size.

BOYS' AND GIRLS' CLOTHING

GIVE AGE SIZE. To find AGE SIZE, take the chest measure, then consult size scales below.

Before ordering a boys' or girls' garment it is necessary to know the chest measure in order to know the proper AGE SIZE to order, as boys of the same age will usually vary greatly in size, and the same with girls. For example, a boy of only 10 years of age may be as large as the average boy of 12, or, on the other hand, he may be as small as the average boy of 9 years. Girls of the same age also vary in size. These size scales show the average chest measure of boys and girls of each age.

Boys' or Little Fellows' Knee Pants, Suits, Overcoats, Raincoats, Mackinaw Coats and Blouses

How to Measure Chest

See L on figure. Measure all around body at chest over his shirt or blouse. See that the tape measure is well up under arms, and that it is over shoulder blades at the back. See size scale for age size to order. If your boy's chest measure is 24 inches, order age size 5, or if it is 30¼ in. order age size 14.

In case the measure is between two of the measurements given at left order the age size for the next larger chest measure.

For example: If your boy's chest measure is 28½ inches, order age size 13.

Boys' Long Trousers and Long Trouser Suits

How to Measure

For suits, measure boy's chest, waist and inseam as shown on figure at M, N and O-O. For trousers, measure waist and inseam only (N and O-O). Our boys' long trousers and long trouser suits are sold according to age, size and measurements. The table below shows you the measurements of the different age sizes. For example: If your boy's chest measure is 27 inches, waist measure 25½ inches and inseam 23 inches, order size 10. If you find that your boys' measurements do not agree with age sizes given in the table, **send us the chest, waist and inseam measurements and state height and weight** and we will send a garment that will fit him.

Girls' or Children's Dresses, Blouses, Middies and Raincoats

How to Measure Chest

See P on figure. Measure all around body at chest over her dress or blouse. See that the tape measure is well up under arms, and that it is over shoulder blades at the back. See size scale for age size to order.

If your girl's chest measure is 22 inches, order age size 3, or if it is 31 inches, order age size 12.

In case your girl's chest measure is between two of the measurements given at right, order the age size for the next larger chest measure.

For example: If your girl's chest measure is 26½ inches, order age size 8.

WINDOW SCREENS

EVERY ONE realizes how necessary screens are to health and comfort. Screen windows and doors admit fresh air without bothersome insects. Eliminate the nuisance of flies and mosquitoes. They are dangerous to your health.

Big stocks. Prompt shipment. Our service is thoroughly dependable. We ship promptly, as we carry a full line of stock sizes. Our low prices will make you a substantial saving.

Buy here at wholesale factory-to-you prices. Highest grade. Satisfaction guaranteed.

Extra Special

Freight Equalized with CLINTON, IOWA, or ST. LOUIS, MO.

All Millwork items on this page are shipped from our own factory in OHIO, but on orders totaling **over 100 lbs.** in weight you will only be charged the freight from CLINTON, IOWA, or ST. LOUIS, MO., whichever is nearer to your station.

Full Length Window Screens

1⅛ Inches Thick

All full length screens, made of clear soft wood, 1⅛ inches thick. The stiles, that is, the pieces that run lengthwise, are 2⅛ inches wide. The top crosspiece is also 2⅛ inches wide. The bottom crosspiece is 3½ inches wide. This allows a small margin for trimming. Carefully crated. Guaranteed to reach you in good condition. If sizes wanted are not shown, write for special price.

Half Length Window Screens

With Grooved Stile and Loose Slides

Made of the Best Clear Lumber Suited for the Purpose

Slides are included in the price quoted. The screens are just high enough so that top rail is on a line with the middle rail of the window.

Measure between blind stops for the exact size of the screen. **These screens will be made to your order, which will require about three weeks.** All half length window screens ¾ of an inch thick.

Double Duty Combination

Screen and Storm Doors

You will note from the illustration above that the metal lock is adjustable. Every half turn of screw operates lock, increases its pressure and holds panel firmly; also eliminates any chances for rattling.

Here's the highest class combination screen and storm door made. A high grade screen door in summer—a substantial storm door in winter—at the price of one door. The door remains on hinges all the year round—you simply change the center panel in spring and fall. **A strong, adjustable fastener holds screen or glass panel firmly in place.** So easy to operate that a woman can readily make the change.

Change from storm door to screen door, or vice versa, in a jiffy—all you need is a screwdriver.

It's the most dependable and easiest adjustment (see illustration above) together with a most dependable door sash and screen arrangement.

SPECIFICATIONS

It will no longer be necessary, when the end of the summer comes, to take down the screen door and put up a storm door in its place. This door remains on the hinges the year around. Prices include door, one glazed storm panel and one 14-mesh galvanized wire screen panel.

Made of clear, white pine, clear window glass. Securely held in place, and high grade 14-mesh galvanized wire screen cloth. Side and top rails, 4¾ inches wide; bottom rail, 9¼ inches wide. This allows a small margin for trimming to insure snug fit. Wood panel at bottom of door, 8 inches wide. Furnished in the white, not painted or varnished.

How to Measure for a Truss

Take measurement around body on line with rupture, holding the tape line snugly, 1 inch below hip joints. The truss to fit correctly should fit snugly around body slightly above fleshy part of the buttock. Trusses carried in even sizes only.

Note—Consult a physician before ordering a truss to be sure you obtain the correct style.

Made for Comfort and Security

LEELAND Elastic Truss

With Soft Rubber Air Cushion Pad

Here are some reasons why this truss has always been so popular:

It can be worn by many people who will not wear ordinary spring or elastic trusses. The air cushion pad clings to the body and can easily be adjusted to the desired position and, when once set, the pad will stay firmly in place without discomfort. It can be worn without being noticed through the clothing. When once adjusted it can be worn at work or at play without having to be readjusted and without discomfort, binding or irritation. We recommend this rupture appliance and feel sure it will give satisfaction, as it is easily adjusted, comfortable to wear and a very popular truss. Belt and understrap made of good qualty elastic webbing. Sold in single and double. We carry these trusses in stock in even sizes from 30 to 42 inches, and therefore are prepared to fill any orders promptly. **State size and side. We pay the postage.**

Seamless Elastic Hosiery
Made to Your Measure

We sell the best quality seamless elastics at prices you have been paying for those made with seams. Seamless elastics have an even support at all points, giving correct pressure where needed most. For this reason they are especially adapted to the relief of varicose veins, weak, ulcerated, swollen or sprained limbs. Seamless elastics fit better, are more comfortable and are less noticeable on the leg than those with seams.

All Seamless Elastics shipped from factory in Massachusetts. ***Seamed Elastics shipped from factory in Northeastern Illinois.***

Important Notice
All articles on this page where lettered measurements are requested, are specials and require from six to ten days to make, depending upon the article.

How to Measure
All measurements should be taken with leg in position illustrated, and in the morning before limbs have had an opportunity to swell. It is advisable whenever possible to have someone else take your measurements, as they can probably get them more exact. **We allow for stretching so give exact measurements of limb.** When elastics are once made according to special size we cannot accept their return. Prices shown on elastics for one garment only. If pair is desired send double amount. **State whether for right or left leg.** If possible consult a physician before ordering.

Mulsified Shampoo

Why Millions Use MULSIFIED Cocoanut Oil Shampoo

The simple, modern styles of hairdress make beautiful hair a necessity. They are effective ONLY when the hair itself is beautiful.

Luckily, beautiful hair is now easily obtained. It is simply a matter of shampooing.

Proper shampooing makes the hair soft and silky. It brings out all the real life and luster, all the natural wave and color and leaves it fresh looking, glossy and bright.

Try this quick and simple method. See the difference it makes in the appearance of your hair. Note how it gives new life and luster, how it brings out all the wave and color. See how soft and silky, bright and glossy your hair will look. While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soap soon dries the scalp, makes the hair brittle and ruins it. This is why millions of women use Mulsified cocoanut oil shampoo. This clear, pure and entirely greaseless product brings out all the real beauty of the hair and cannot possibly injure.

Just Notice the Difference

Two or three teaspoonfuls of Mulsified makes an abundance of rich, creamy lather, which cleanses thoroughly and rinses out easily.
